

Prerequisite: Waste Bin Assessment Form

To gain credit for this prerequisite activity in the Challenge, you must conduct a visual assessment the day before waste and recycling pick up for two weeks.

For example, if you have garbage/recycling pick-ups on Tuesdays and Thursdays, you will check your bins at the end of the work day on a Monday and Wednesday to gauge how full the bins are and take a photo of the bin before pick up the following day. You can also take your visual assessment and bin photo the day of the pick-up – just ensure that you don't miss your chance to collect the information and photo!

Please fill out the following form to help track data/information from your two week visual waste bin assessment and submit it through the IGOC website when complete. This activity must be completed by April 30th, 2016 and must be completed before earning additional points in the Waste category.

Garbage toter/bin size: _____ (yards, cubic feet, gallons)

Recycling toter/bin size: _____ (yards, cubic feet, gallons)

Number of garbage pick-ups per week: _____; **Cost of garbage pick-up/week:** _____

Number of recycling pick-ups per week: _____; **Cost of recycling pick-up/week:** _____

Date of Visual Assessment	Date of Pick-Up	Garbage - % filled	Recycling - % filled	Notes

Place bin photos here! Please add date(s) of photo(s) and whether the bin is recycling or waste.
