

Acknowledgment I want to thank Dr. Maria Chiara Pino and Dr. Melania Mariano (L'Aquila University) for their precious help with data collection. I also want to thank Prof. Stephen Wechsler (The University of Texas at Austin) for giving me advice. A special thanks goes to Prof. Denis Delfitto (University of Verona), a great source of inspiration for this study. I'm also thankful to the anonymous reviewer: all comments and suggestions were valuable and very helpful for revising and improving my manuscript. All errors are my own.
