

ILLINI GADGET GARAGE

I

@IlliniGadget  

DON'T PITCH IT -- FIX IT!

At the **Illini Gadget Garage**, staff and volunteers work with U of I students and members of the community to demystify and **extend the useful life of electronic devices like phones, tablets, laptops, and media players**. We use a “do-it-together” approach, helping device owners to identify problems, obtain necessary parts, and make repairs.

EVENTS

In addition to the Gadget Garage’s main location near the U of I Research Park, **pop-up clinics** can be scheduled across campus and in the community.

The Gadget Garage also offers **employee engagement events**—our staff will come to your business or organization to teach staff how electronics work and lead them in collaborative problem-solving as they make repairs and have fun. For pricing and scheduling, contact Joy Scrogum at jscrogum@illinois.edu or 217-333-8948.

VOLUNTEER

Help us build a community of fixers! Visit our website for volunteer opportunities.

DONATE

Support the Illini Gadget Garage with a tax-deductible donation (via the U of I foundation) at www.sustainelectronics.illinois.edu/SEIdonation.html
