

SUSTAINABLE E-WASTE Design Competition

PROJECT ABSTRACTS

Art/Designer Category

Team Number: 11

Category: Artist / Designer

Project Title: Campus Internet Kiosk

Team Members: Steven Winter, Joshua Howard, Jeff Younger

Project Description:

A project focusing on reusing outdated personal computers, to provide the campus environment with limited internet access and media resources. The goal is to continue using refurbished equipment to extend the product life and retain the e-waste's maximum potential value. Not only will people be able to check email and some media sources, the kiosk will also inform the user about e-waste awareness and possibly provide a number where the user can donate replacement e-waste pieces for the kiosks. These kiosks will be solar powered with minimal wind power as well to cut down on some solar panel costs.
