

SUSTAINABLE E-WASTE Design Competition

PROJECT ABSTRACTS

Art/Designer Category

Team Number: 15

Category: Artist / Designer

Project Title: Community Projector

Team Members: Samuel B. Ero-Phillips, Christina Johnson, Signe Higgins, Erma Maves

Project Description:

We intend to recycle LCD monitors coupled with overhead projectors to project movies for communities of developing countries and their schools. We intend these projected computers to be powered by bicycle-generated energy that can be gathered at the community or school playground, thereby avoiding dropping used technology on the country and expecting them to have the energy source to power it.
