Find technical assistance providers in your state by using the tool at the bottom of the page.

## General Pollution Prevention

### Pollution Prevention 101 LibGuide

<http://guides.library.illinois.edu/P2>

Links to a wealth of pollution prevention resources, including case studies and sector specific information. Find more links to painting and coating information on the [Sector/Subject Specific > Painting & Coating](#) page.

## Painting and Coating

### Optimizing Your Spray System: A Guide to Maximizing Spray Performance and Reducing Operating Costs

[https://www.spray.com/Literature\\_PDFs/TM410B\\_Optimizing\\_Your\\_Spray\\_System.pdf](https://www.spray.com/Literature_PDFs/TM410B_Optimizing_Your_Spray_System.pdf)

Guide compiled by Spraying Systems Co. based on their experiences with helping customers solve spray application problems.

### Owner Operator Information Sheet: Reducing Air Pollution from Painting and Coating Operations

<https://nepis.epa.gov/Exe/ZyPURL.cgi?Dockey=P100BYYW.txt>

EPA Healthy Air fact sheet providing suggestions for reducing air pollution in painting and coating operations.

### Paint webinar series from the Minnesota Technical Assistance Program

<http://www.mntap.umn.edu/resources/webinars/#tab-4>

Series of webinars held in 2015. Episodes include transfer efficiency, paint formulation modification, and powder coating considerations. Features speakers from companies like Graco, ProPaint, Nordicware, Superior Industries, Lou-Rich, and Valley Craft.

### Painting and Wood Finishing Assistance

<http://www.mntap.umn.edu/industries/facility/paint/>

Offers ideas and resources for preventing pollution within painting and wood finishing operations. They also provide information on the environmental and safety rules in Minnesota.

### SprayItRight Online Training

<https://iwrc.uni.edu/spray-it-right>

Provides an easy to use online training to comply with the National Emission Standards for Hazardous Air Pollutants (NESHAP) for Paint Stripping and Miscellaneous Surface Coating Operations (40 CFR Part 63, Subpart HHHHHH). Under this regulation, all painters at an affected facility are required to be trained every five years on proper spray techniques, booth setup and rule requirements. 90 minute to two-hour online training offered by the Iowa Waste Reduction Center. Cost: \$99.95.
