

# Building a research program at a primarily undergraduate institution (PUI)

Jacob Stewart – Connecticut College

CONNECTICUT  
COLLEGE

- Doing research at a PUI is a rewarding and challenging experience
- Some principles can help to overcome challenges
  - Do exciting research
  - Use resources wisely
  - Give students the chance to shine
  - Get students involved early and often
- Willing to answer questions from those thinking of following this career path

Ultimately, it's all about  
the awesome students!
