

The Stories We Carry: Ivanna Modrytska

Observe

Three sources that will help my group to develop a collaborative paper are the following:

1. An Illini Century One hundred years of campus life. University of Illinois Press, Urbana, 1967. University of Illinois Archives.
2. University of Illinois Student Life, 1928-38: Oral History Project. Florence Mary Hood Miner '29. November 6, 2000.
3. University of Illinois Student Life, 1928-38: Oral History Project. Audrey Moore Stewart-Class of '32. May 19, 2001.

Discuss

I found two interviews with two female students that graduated at the same time with Lucia and in the interviews they talked why they went to college in the first time, what their goals were, what they wanted to achieve initially in life. Female education was very extraordinary for women to have back at that time. Both of the women talked about what their careers were and one of them was an English major and the other one was journalism major. Both of them were an interest for Lucia, so through interviews I could get a sense of what Lucia is going to do after college, what career she is going to pursue and where she is going to be working.

The third source is the history of the decade when Lucia and Phil got married for better understanding in what situation they were and what happened during that time that could have influenced Lucia's and Phil's life.

Other

This is my paragraph proposal that I brought to my project group to discuss. However, we came up with a totally new idea about our project.
