**Question**

We are planning to add another chapter to Co-Ed. This chapter would be following the marriage of Sal and Phish. It would give an in depth view of their marriage post abortion drama.

**Plan**

Our plan of attack is doing research on life of married couples during the 1920s preferably. Due to the archives data available we did have to look into other time period close to the 1920s.

In our research, we will elaborate on:

1. The idea of abortion during the 1920s on a university campus.
2. What the daily life was for students who were married attending the university.
3. Student diary entries (Jacob Goldstein letters) to give an insight on students' views on other students.
4. Research on Urbana-Champaign area.
5. University policies on when students have children, get married, and socialize with the other gender.
6. Policies towards sexual norms: administrative policies, potential consequences, life for married students.

**Observe**

**Discuss**
