CHARLES RUSS RICHARDS, M.M.E., D. ENG., - - - DEAN
HARVEY HERBERT JORDAN, B.S., - - - ASSISTANT DEAN

DEPARTMENT OF ARCHITECTURE

LORING HARVEY PROVINE, A.E., ... Professor of Architectural Engineering and Head of the Department.
NATHAN CLIFFORD RICKER, D.Arch., ... Professor, Emeritus
NEWTON ALONZO WELLS, M.P., ... Professor of Architectural Decoration, Retired.
JAMES MC LAREN WHITE, B.S., ... Professor of Architectural Engineering, Supervising Architect.
CHESTER MORTON DAVISON, B.S., ... Associate Professor of Architectural Design
CYRUS EDWIN PALMER, M.S., ... Assistant Professor of Architectural Engineering
RENFORD NEWCOMB, M.Arch., ... Assistant Professor of Architectural History
LEMUEL CROSS DILLENBACK, A.M. ... Assistant Professor of Architectural Design
WILLIAM MACY STANTON, M.S., in Arch., ... Assistant Professor of Architectural Design
JOSEPH EDWIN BURGESS, B.P., ... Associate in Freehand Drawing
THOMAS EDWARD O'DONNELL, B.S., ... Associate in Architectural Design
RALPH STANLEY FANNING, M.S., ... Associate in Architecture
LOUISE MARIE WOODROOFE, B.P., ... Instructor in Freehand Drawing
CHAuncey Ruthven McAXLIS, C.E., ... Instructor in Architectural Engineering
ERNST LANGFORD, B.S., ... Instructor in Architectural Construction
STANLEY POTTER STEWART, B.Arch., ... Instructor in Architectural Design
WINIFRED FEHRENKAMP, B.I.S., ... Librarian, Ricker Library
THE RICKER LIBRARY OF ARCHITECTURE

The Ricker Library of Architecture at the University of Illinois is one of the few great architectural libraries in the country. With the wonderful collection of books, mounted plates, photographs and drawings, stereoscopic views and lantern slides, the facilities offer a rare opportunity as a working library for the undergraduate student, and as a research laboratory for the graduate student. The collection includes books on history, theory in design, landscape architecture, competitions, the fine arts, construction and engineering; there are over thirty-five current periodicals both domestic and foreign; there are a number of old and rare books. The library contains the English translations made by Dr. X. C. Ricker of French and German works on architecture, many of which have never before been translated into the English language. The library, therefore, through these translations offers access to some of the greatest works of the French and German writers.

The Ricker Library is a great laboratory, housed in an attractive room with plenty of windows and skylights, and arranged so that the student has access to all the information in the library. While a great many libraries are for reference only, the Ricker Library is a working library, and as such encourages the use of the facilities by the students in the library room. Everything is conveniently located and is at the disposal of the student, not only one book at a time, but as many references as may be required. It is felt that this opportunity for work in the room adds to the value and usefulness of the library.

THE FUTURIST FETE

In former years the Architectural Fete has been an historic pageant. This year it took the form of a futurist frolic when the ethereal realm of the Architects, situated upon the sky floor of Engineering Hall, became for one brief night—that of April 23—a fairy-land of shimmering, colorful, haziness, inhabited by curious and unearthly animals and people by some of the most glorious human creatures that ever gained form in a poet's dream. Wierd and mysterious effects in form, color and music characterized this, the most beautiful and fantastic of the fetes held to date. The event will long be remembered as one of the most successful of a series of departmental parties.

FELLOWSHIPS AND PRIZES

The Francis J. Plym Fellowship

This Fellowship is awarded annually to a graduate of the Department, by competition, and carries a stipend of one thousand dollars for one year of travel abroad for the study of architecture.

The Plym Prize

This Prize representing fifty dollars worth of books is awarded by competition to three students in the junior year of architectural engineering.

The American Institute Medal

The American Institute of Architects offers annually a medal to be awarded to the graduate of the Department whose work throughout the four years has been adjudged the best. In making the award the scholarship in all work for the entire curriculum is considered.

The Scarab Medal

The Scarab Medal in Architecture is awarded annually to a student of the Department. This prize is a bronze medal which is awarded by competition.

The Faculty Prize

A volume of some work on architecture is awarded annually by the faculty to the student showing throughout the year the greatest progress in sketch problems.

NILES, MICHIGAN
“Imperial”

This is the copyrighted name of our product.

It is applied to each of our patterns, whether the “Imperial” Spanish, the “Imperial” Closed Shingle, the “Imperial” French, the “Imperial” Mission, the “Imperial” Roman, the “Imperial” Slab Shingle, or any other of the shapes we make. It was our intention to apply to this product a name which would be as distinctive as the character and quality of the material itself.

Therefore, all that it is necessary to state in order to define the selection of our material is to use the words “Imperial Roofing Tile” with a statement as to whether these are to be of Spanish, Mission, Roman or Shingle types. Any offering of tile as “Imperial” which is not our product would be hazardous on the part of another manufacturer or his representatives.
