Our project team includes BTW 250-A1_06-01, Somaiya Shakil, Ming-Tao Tsai, and Chase Connor. For our project, we plan to meet during regular class hours on Monday, Wednesday, and Friday. Monday and Wednesday mornings we will meet in the fourth floor of Grainger Library, and Friday mornings we will meet in the English Building computer lab. We have exchanged contact information and will use it to email, phone, and in some cases Instant Message each other when necessary.

We’ve decided to divide up the work equally four ways. Every one will research on their own to find 5 reliable sources to bring to the group for final revision. The interviews will also be divided equally so that no member of the team does more work than another team member.

Our time line will follow the one we are given in class, meaning we will respect the due dates and complete our work by 6pm the night before it’s due. In order for us to ensure that the documents are as expected, drafts will be posted in I-Labs and everyone will provide feedback and/or suggestions for improvement. Decisions will be made by a team consensus.

If any one member manifests repetitive absences or lack of effort in their tasks, it will be recorded and brought to the instructor’s attention. If it does not improve, we will ask that he be excluded from the group. If he wants to stay in the group, the team members will insist that he get caught up to initial standards. Each member of the group will grade the others on a scale of 1-5 in 4 categories: Research Content, Proper Sources/Citation, Length of Document, and Effort in Tasks.

Support will be offered by each member through feedback and understanding. We will also pair-up team members when needed to accomplish a task. We will work together regularly and supply equal effort towards the project. Our common goal is to obtain thorough and accurate information and provide it in a collective and organized manner to the class. We will achieve this by following all guidelines either provided by the instructor or created by the team.
