LIBRARY TRENDS

Library Trends, a quarterly thematic journal, focuses on current trends in all areas of library practice. Each issue addresses a single theme in depth, exploring topics of interest primarily to practicing librarians and information scientists and secondarily to educators and students.

Editor: F. W. Lancaster

Library Trends is indexed or abstracted in *Current Contents, Current Index to Journals in Education, Information Science Abstracts, Library and Information Science Abstracts, Library Literature, PAIS,* and *Social Sciences Citation Index.* The paper used in this publication meets the minimum requirements of the American National Standard for Information Sciences–Permanence of Paper for Printed Library Materials. ANSI Z39.48-1984.

Procedures for Proposing and Guest Editing an Issue of *Library Trends*

We encourage our readers to submit ideas for future *Library Trends* themes; issue topics are developed through recommendations from members of the Publications Committee and from reader suggestions. We also encourage readers to volunteer to be issue editors or to suggest others who may be willing to be issue editors.

The style and tone of the journal is formal rather than journalistic or popular. *Library Trends* reviews the literature, summarizes current practice and thinking, and evaluates new directions in library practice. Papers must represent original work. Extensive updates of previously published papers are acceptable, but revisions or adaptations of published work are not sought. Although *Library Trends* is not formally peer-reviewed, guest editors invite articles for submission, which are then critically reviewed by both the guest editor and journal editor. **Unsolicited articles are not accepted**.

An issue editor proposes the theme and scope of a new issue, draws up a list of prospective authors and article topics, and provides short annotations of each article's scope or else gives a statement of philosophy guiding the issue's development. Please send your ideas, inquiries, or prospectus to F.W. Lancaster, Editor, GSLIS Publications Office, 501 E. Daniel Street, Champaign, IL 61820-6211.

INDEXING AND ABSTRACTING IN THEORY AND PRACTICE

3rd edition

By F. W. Lancaster

"Lancaster's work stands by itself as a superior textbook for a course on indexing and abstracting, or as a supplement for any number of courses in related areas (e.g., database management, information retrieval, introductory organization of information, etc.)." —Technicalities

AWARD-WINNING TEXT UPDATED

The third edition of this widely respected manual of best practice is even more comprehensive than the first edition, which won the 1992 ASIS Best Information Science Book Award. Fully revised to address changes since 1998—especially in the areas of multimedia sources, text searching, automatic indexing, and the Internet—this edition is illustrated throughout with useful indexing and abstracting guidelines for student and pracitioner. Covered areas include:

- indexing principles and practice
- pre-coordinate indexes
- consistency and quality of indexing
- types and functions of abstracts
- writing an abstract
- evaluation theory and practice
- approaches used in indexing and abstracting services
- indexing enhancement
- natural language in information retrieval
- indexing and abstracting of imaginative works
- databases of images and sound
- automatic indexing and abstracting
- the future of indexing and abstracting services

In addition to use as a text, *Indexing and Abstracting in Theory and Practice* holds value for all individuals and institutions involved in training for information retrieval and related activities, including practicing library and information professionals, database producers, those engaged in portal design, and all professionals involved in knowledge management in general.
