VIRGINIA METAL PRODUCTS

The design and the metal requirements of the bookstacks in the United States Supreme Court Library were of a very special nature. VMP's vast experience in the bookstack field enabled them to furnish a finished installation suitable for the monumental beauty of this building.

Whether the installation is of this special nature or whether it is a highly technical matter, such as the structural use of VMP's bookstacks, the advisability of a book conveyor, the selection of suitable partitions for offices, seminars and reading rooms, or a matter of selecting and positioning a few sections of shelves—VMP's Library advisory service is freely available to Architects and Librarians without obligation.
