**Solve Periodicals
storage problems**

SAVE 94%^{of} SPACE!

Over 1200 available on microfilm

You can cut 94% of the storage needs for periodicals by adopting the plan of many librarians who use University Microfilms as periodical backfiles. They have a two-part program:

(1) Keep regular issues available for the first year or two of greatest use. Then, get microfilms for enduring reference needs. The cost is no more than for binding.

(2) Replace backfile bound volumes with microfilm when their stack space is needed for better use. It costs less than a building addition.

Binding serial publications each year compounds your storage problems. Send for new catalog with a complete price list of the more than 1200 periodicals now available on University microfilm.

UNIVERSITY MICROFILMS, Inc.

SOVIET PHYSICS JOURNALS

Published in English by the American Institute of Physics

Soviet Physics—JETP

A translation, beginning with 1955 issues of "Journal of Experimental and Theoretical Physics" of the USSR Academy of Sciences. Leading physics journal of Soviet Union. Similar to "The Physical Review" in quality and range of topics. Outstanding new work is most likely to appear in this journal.

Twelve issues, approximately 3,500 pages. \$75 domestic, \$79 foreign. Libraries \$35 domestic, \$39 foreign. Single copies, \$8.*

Soviet Physics—SOLID STATE

A translation, beginning with 1959 issues of "Fizika Tverdogo Tela" of the USSR Academy of Sciences. Offering results of theoretical and experimental investigations in the physics of semiconductors, dielectrics, and on applied physics associated with these problems. Also publishes papers on electronic processes taking place in the interior and on the surface of solids.

Twelve issues, approximately 2,000 pages. \$55 domestic, \$59 foreign. Libraries \$25 domestic, \$29 foreign. Single copies, \$8.*

Soviet Physics—TECHNICAL PHYSICS

A translation, beginning with the 1956 issues of the "Journal of Technical Physics" of the USSR Academy of Sciences. Contains work on plasma physics and magnetohydrodynamics, aerodynamics, ion and electron optics and radio physics. Also publishes articles in mathematical physics, the physics of accelerators and molecular physics.

Twelve issues, approximately 2,000 pages. \$55 domestic, \$59 foreign. Libraries \$25 domestic, \$29 foreign. Single copies, \$8.*

Soviet Physics—ACOUSTICS

A translation, beginning with 1955 issues of "Journal of Acoustics" of USSR Academy of Sciences. Devoted principally to physical acoustics but includes electro, bio, and psycho acoustics. Mathematical and experimental work with emphasis on pure research.

Four issues, approximately 400 pages. \$12 domestic, \$14 foreign. (No library discounts.) Single copies, \$4.

**For libraries of non-profit degree-granting academic institutions.*

(Subscription prices subject to annual variation depending on size of Russian originals.)

Please send orders and inquiries to

American Institute of Physics

335 East 45 Street, New York 17, N.Y.

Soviet Physics—DOKLADY

A translation, beginning with 1956 issues of "Physics Sections" of Proceedings of USSR Academy of Sciences. All-science journal offering four-page reports of recent research in physics and borderline subjects.

Six issues, approximately 1,500 pages. \$35 domestic, \$38 foreign. Libraries \$15 domestic, \$18 foreign. Single copies Vols. 1 and 2, \$5; Vol. 3 and later issues, \$7.*

Soviet Physics—CRYSTALLOGRAPHY

A translation, beginning with 1957 issues of the journal "Crystallography" of USSR Academy of Sciences. Experimental and theoretical papers on crystal structure, lattice theory, diffraction studies, and other topics of interest to crystallographers, mineralogists, and metallurgists.

Six issues, approximately 1,000 pages, \$25 domestic, \$27 foreign. Libraries \$10 domestic, \$12 foreign. Single copies, \$5.*

SOVIET ASTRONOMY—AJ

A translation, beginning with 1957 issues of "Astronomical Journal" of USSR Academy of Sciences. Covers various problems of interest to astronomers and astrophysicists including solar activity, stellar studies, spectroscopic investigations of radio astronomy.

Six issues, approximately 1,100 pages. \$25 domestic, \$27 foreign. Libraries \$10 domestic, \$12 foreign. Single copies, \$5.*

Soviet Physics—USPEKHI

A translation, beginning with September, 1958 issue of "Uspekhi Fizicheskikh Nauk" of USSR Academy of Sciences. Offers reviews of recent developments comparable in scope and treatment to those carried in "Reviews of Modern Physics." Also contains reports on scientific meetings within the Soviet Union, book reviews, and personalia.

Six issues, approximately 1,700 pages. (Contents limited to material from Soviet sources.) \$45 domestic, \$48 foreign. Libraries \$20 domestic, \$23 foreign. Single copies, \$9.*

How to keep a vast reference library in a small card file

Each year, more and more technical literature in such fields as science, humanities, law, finance is being published on microprint cards. These cards allow even the smallest organization to keep full reference files in very little space and at very low cost!

For example, you can keep up to 60 pages of data on a single 3 x 5 card . . . you actually have your library on the back of the index cards!

A free booklet "What's Available on

Microprint Cards" lists titles available from leading publishers. You can get a copy from any Recordak office, or from your local Recordak Microfilming Dealer. And while you're at it, ask to have the Recordak Microprint Reader demonstrated in your own office—or mail coupon for descriptive folder.

"Recordak" is a trademark
