Announcing U-M's new DURA-FILM

The first improvement in microfilm production in more than a decade has now been achieved by University Microfilm research engineers!

Called DURA-FILM to emphasize its durability this new film provides you with the same clear images plus a surface that is 6 times more scratch and wear resistant!

Microfilm critics have always mentioned the danger of viewing machine scratches. Now all doubts of film surface hardness are ended by this new development available only from University Microfilms at no additional cost.

See for yourself. Send for sample. See why, more than ever, it pays to specify U-M Microfilm for lasting viewing clarity.

Make a scratch comparison

When you get some of this new film make the coin scratch comparison shown above, on leader film of both kinds. The extra surface hardness of Dura-Film is truly amazing.

UNIVERSITY MICROFILMS, INC.
313 N. FIRST STREET, ANN ARBOR, MICHIGAN
Texas Christian University... situated on 143 acres of rolling grasslands near Fort Worth, TCU — once known as "The Prairie School"— is the oldest institution of higher learning in West Texas. Founded in 1873, today enrollment tops 8500 students.

TCU's eight schools and colleges stress the Arts, Education, Business, Religion, and, under a recent "depth" expansion policy, existing graduate studies will soon be extended to offer the PhD degree.

Anticipating this, the University's Mary Couts Burnett Library has been tripled in size, at a cost of $1,300,000 to accommodate 800,000 volumes, and provide study space for 1,000 students. Globe-Wernicke desks, bookshelves, study carrels, and other associated library equipment form an integral part of this rapidly growing library.

The “Ribs” on a Bro-Dart Book Support provide reinforcement for greater strength and support. The small “cut out” means that many more supports can be “nested” for storage in a small area.

**Yes... EVEN A BOOK SUPPORT CAN BE IMPROVED!**

**MORE STRENGTH**
Ribbed construction makes Bro-Dart Book Supports stronger, longer lasting.

**MORE "NESTABILITY"**
Save storage space! Bro-Dart Book Supports can be nested in larger quantities.

**MORE VARIETY**
7 Decorative Colors add beauty to your stacks!
- Black, Grey, Brown, Sand, Red
- Jade Green, Olive Green

All types of micro-opaque cards are easy to read with the Recordak Microprint Reader.

How to build up your reference library without "growing pains"

Those two drawbacks—space restrictions and high costs—are bypassed when you get reference works on micro-opaque cards. Some of these, for example, hold 60 pages of data per 3 x 5 card . . . let you keep your microprint library right on the back of your index cards! And the cost is trifling compared to bound volumes.

A free booklet, "What's Available on Microprint Cards," lists titles available from leading publishers in such fields as science, law, finance and the humanities. Get your copy from any Recordak office. At the same time, ask to have the Recordak Microprint Reader demonstrated in your office—or mail coupon for descriptive folder.

"Recordak" is a trademark
