Facts About THE Presidents

By Joseph Nathan Kane
Author of "Famous First Facts"

1959 ★ 360 p. ★ ill. ★ $6

EVERY VITAL KNOWN FACT—almost without exception—about the Presidents of the United States, will be found in this new one-volume book: FACTS ABOUT THE PRESIDENTS: A Compilation of Biographical and Historical Data.

PART I—A chapter is devoted to each President in the chronological order in which he took office. Data in these chapters are arranged uniformly. A genealogical compilation presents vital material about the President's parents, brothers and sisters, wife and children. Family history is followed by data on elections, congressional sessions, cabinet appointments and the vice president, as well as highlights of the President's life and administration.

In PART II material is presented in comparative form, with collective data and statistics on the presidents as individuals and on the office of the presidency.

All types of micro-opaque cards are easy to read with the Recordak Microprint Reader.

How to build up your reference library without "growing pains"

Those two drawbacks—space restrictions and high costs—are bypassed when you get reference works on micro-opaque cards.

Some of these, for example, hold 60 pages of data per 3 x 5 card... let you keep your microprint library right on the back of your index cards! And the cost is trifling compared to bound volumes.

A free booklet, "What's Available on Microprint Cards," lists titles available from leading publishers in such fields as science, law, finance and the humanities. Get your copy from any Recordak office. At the same time, ask to have the Recordak Microprint Reader demonstrated in your office—or mail coupon for descriptive folder.
