Check University Microfilm's new 63-page cumulative O-P books catalogue for those hard-to-find, tough-to-buy books. More than 2000 titles available as paper-bound reprints. Most titles are $3.50 cents per page.

The quality reproductions of O-P books and the reasonable prices are surprising to most librarians and scholars. If you have not already received yours, write for the new UM O-P books catalogue today.

KRAUS REPRINT CORPORATION
16 EAST 46th STREET, NEW YORK 17, N. Y.
Everything accessible; all types of books, records, films, charts, periodicals, newspapers, other items.

Without adding a square inch of floor space, Hamilton Compo stacks give you at least twice as much storage capacity as ordinary shelving.

When the sliding Compo shelf is pulled out, the books are more easily accessible than on a straight shelf—and when not in use, it slides back into the stack, out of the way. Books may be stored on both sides, and on the front compartment of the shelf. Moving dividers make Compo adaptable to many items—which can be filed in vertical or horizontal position. Books are easier to identify and to handle.

Compo equipment is mechanically strong, operates easily and quietly, can be quickly installed—without basic structural changes. Write now for complete information on Compo, including stack, drawer, and construction details.

This is the heart of the Hamilton Compo System
