Save 94% of Periodical storage space with University Microfilms

*Over 1500 Serial
publications now
available*

These handy little boxes are providing adequate periodical reference service—while saving 94% of storage space—for many leading libraries. It is accomplished by following the suggestions in this two-part program.

- 1.** Keep regular issues available for the first year or two—the period of greatest use. Then, get microfilms for enduring reference needs. It costs no more than binding the shelf worn periodicals—saves 94% of space.
- 2.** Replace present backfile volumes with microfilms when the stack space they take is needed for better use. It costs much less than a building addition.

Many new titles have been added to UM availabilities in the last few months, making the service more comprehensive than ever. Write for the complete list of backfile and current volumes.

UNIVERSITY MICROFILMS, Inc.

CURRENT CONTENTS SERVICES ARE SPECIALLY DESIGNED TO KEEP INDIVIDUAL SCIENTISTS ABREAST OF NEW DEVELOPMENTS

CURRENT CONTENTS OF CHEMICAL, PHARMACO-MEDICAL & LIFE SCIENCES is a comprehensive weekly service that lists the tables of contents, most of them in advance, of more than 600 primary scientific journals. With this service, the scientist is given a unique, convenient method to scan the title pages of journals of interest to him without physically handling thousands of individual issues per year. Spending about one hour per week, he can easily check off articles of interest. **CURRENT CONTENTS** also provides, when possible, author addresses so scientists can write to colleagues for reprints. In addition, Original Article Tear Sheets are available.

CURRENT CONTENTS OF SPACE & PHYSICAL SCIENCES enables scientists to keep up with new developments in such fields as missiles and rockets, electronics, mathematics, computers, physics, nuclear energy and instrumentation. This new weekly service comprehensively reports the contents of more than 500 primary journals—over 100,000 individual articles per year. As a special bonus, all basic chemical journals are covered in this edition of **CURRENT CONTENTS**. Available only to **CURRENT CONTENTS** subscribers is our exclusive Original Article Tear Sheet service, OATS supplies the principal ingredient in the effective utilization of scientific information—prompt and convenient access to original documents. And cost of OATS is lower than hard-to-read photocopies.

God and Men

Herbert H. Farmer. This dynamic approach to the distinctive Christian teaching about God and his relationship to men provides thoughtful answers to some of modern man's most perplexing problems. The substance of these chapters was delivered as Lyman Beecher Lectures at Yale. 208 pages. **\$1.25**

Jeremiah

Elmer A. Leslie. "This book does much to blaze the way to transcendently important truths taught by Jeremiah as they are unfolded."—*Virginia Kirkus*. "A new, exact, and beautiful translation . . . it is a work for the general reader."—*Current Religious Thought*
352 pages. **\$2.25**

An Ancient Mariner

Bernard Martin. A biography of John Newton, who after an astonishing series of adventures, including being a slave, then a slave trader, was converted to Christianity. Under the influence of Whitefield and Wesley, he became a Christian minister who contributed to the abolition of the slave trade. Abridged. 240 pages. **\$1.25**

Persecution In the Early Church

Herbert Workman. A deeply moving record of the suffering of the early Christians for their faith. Though a vivid picture, it does not dwell unnecessarily on gory details. (This edition dispenses with the footnotes present in the original edition.) 160 pages. **\$1**
