Twice the bulk—twice the shelf space is necessary with folded pages of other methods—makes volumes bulky and unwieldy.

Duopage* gives you page-for-page exact reproduction!

new...revolutionary

only from MICRO PHOTO INC

Duopage! Duplicates books as originally printed and bound!

Offered for the first time—a long-needed service for duplicating material printed on both sides of a page—without the disadvantages of ordinary one-sided electrostatic reproduction methods.

Page-for-page exact reproduction by DUOPAGE* means that page numbers are no longer partly hidden in bindings. If page numbers appeared in the outer margins of the original book—that's where they are on DUOPAGE* reproductions.

The traditional order of pagination is maintained, too, with the DUOPAGE* method—page one on the right-hand leaf, page two on the reverse of page one, etc.

DUOPAGE* reproductions are made on quality rag paper, and volumes are supplied bound or unbound. Write Micro Photo Inc. to find out how to replace volumes in your library with DUOPAGE*.

"Let me tell you how COMPO stacks doubled our capacity."

"We simply had to find a way to organize and store all of our books . . . and do it without adding extra space. These Hamilton COMPO bookstacks actually gave us almost twice as much book storage capacity—in the same floor space! Our books are more accessible, easier to service—everyone seems happy with our new COMPO installation. Why don't you look into them for your library?"
