# Look what happens when you put a coin-operated Xerox Copier in your library.

*Your readers make their own copies at the push of a button and you keep all the money.*

We have two kinds of coin-operated 914's. One charges a dime a copy.

The other a quarter a copy.

Insert a key and you can make copies for yourself without putting in coins.

You don't have to buy the machine. You only pay Xerox for the copies you make, based on a monthly minimum. (All copies count toward the minimum.)

The big difference between a coin-operated 914 and a regular 914 is that box full of money at the end of every month.

Send in the coupon and we'll send you our brochure: "Keyed To Your Need."

**"It's amazing how  
those coins add up."**

Please send brochure: "Keyed To Your Need"  
I'm interested in a machine that charges:

10¢ a copy     25¢ a copy.
