A student is about to dial the phone in his dorm room. He's going to use it to study French by calling the Learning Lab. At the same time other students will be dialing lessons in Biology, Government, Speech... any subject the university has scheduled for that period. Through the telephone, universities can extend their Learning Lab facilities economically to every dormitory room, so students can take full advantage of a university's opportunities.

This use of the telephone as a learning tool, in addition to its everyday function, is just a beginning. Soon, a student will be able to connect with a computer, put a problem to it, and receive information back in the most convenient form... voice or teletypewriter... even as a video image.

This is one more way we are working to improve communications to meet the future needs of students, faculty and administration. Many of these communications systems—Tele-Lecture service (two-way amplified phone calls), Data-Phone® service, and remote blackboard projection—are available now. Find out what you can do to benefit from them by talking with your Bell Telephone Communications Consultant.

Dial 3621 for French III

# A 50-SECOND QUIZ ON A SUBJECT OF INTEREST TO RESEARCH LIBRARIANS

<table>
<thead>
<tr>
<th>Question</th>
<th>Options</th>
</tr>
</thead>
</table>
| 1. What % of research is unintentionally duplicated because adequate literature searches were not done? | a. 12%  
  b. 22%  
  c. 45%  
  d. 68% |
| 2. Of all the scientists who ever published, what % are still publishing?  | a. 25%  
  b. 50%  
  c. 75%  
  d. 90% |
| 3. What % of scientists never search the literature?                      | a. 25%  
  b. 32%  
  c. 57%  
  d. 72% |
| 4. What organization has the world's largest bank of computer tape files of published scientific information? | a. NLM (National Library of Medicine)  
  b. VINITI (Vsesoyuznyi Institut Nauchnoi i Tekhnicheskoi Informatsii)  
  c. ISI (Institute for Scientific Information)  
  d. NASA (National Aeronautics and Space Administration)  
  e. CFSTI (Clearinghouse for Federal Scientific and Technical Information) |
| 5. The number of scientific papers is doubling every  | a. 3 years  
  b. 10 years  
  c. 25 years  
  d. 35 years |
| 6. The average paper is cited  | a. 1.5 times a year  
  b. 3 times a year  
  c. 5 times a year  
  d. 11.5 times a year |
| 7. The average paper by a Nobel Prize winner is cited  | a. 3 times a year  
  b. 10 times a year  
  c. 22 times a year  
  d. 160 times a year |
| 8. What is the largest single multidisciplinary scientific index published today? | a. Index Medicus  
  b. Chemical Abstracts  
  c. Referativnye Zhurnalnye  
  d. Science Citation Index  
  e. Biological Abstracts  
  f. Engineering Abstracts  
  g. U.S. Government R&D Reports |
| 9. What is the average number of references cited in a scientific paper?  | a. 3  
  b. 9  
  c. 17  
  d. 28 |

**ANSWERS:** 1-b, 2-d, 3-a, 4-c, 5-b, 6-a, 7-a, 8-d, 9-c. Details and supporting documentation available upon request, write Dept. 12-10

This quiz is sponsored by ISI, creators and producers of modern scientific information services. Thousands of scientists throughout the world regularly utilize such original ISI services as:

- **Current Contents—Life Sciences**
- **Current Contents—Physical Sciences**
- **Index Chemicus**
- **Encyclopaedia Chimica Internationalis**
- **Oats (Original Article Tear Sheets)**
- **Science Citation Index**
- **ASCA (Automatic Subject Citation Alert)**
- **ISI Magnetic Tapes**
- **ISI Search Service**

**INSTITUTE FOR SCIENTIFIC INFORMATION 325 Chestnut St Philadelphia Pa 19106 USA**
ATTENTION LIBRARIANS
IMPORTANT RUSSIAN INSTRUMENTATION JOURNALS
Available in Cover-to-Cover Translation

These four scientific and engineering journals have been judged by professionals in the instrumentation field to be the outstanding Soviet publications in instrumentation.

AUTOMATION AND REMOTE CONTROL
Monthly; mathematically oriented, emphasizing stability and optimization of automatic control systems.

INSTRUMENTS AND EXPERIMENTAL TECHNIQUES
Bi-monthly; devoted primarily to nuclear research and associated instrumentation.

MEASUREMENT TECHNIQUES
Monthly; covers measurement of physical variables plus test and calibration of measurement and recording instruments.

INDUSTRIAL LABORATORY
Monthly; devoted to methods of chemical analysis, physical investigation, and mechanical test.

INSTRUMENT SOCIETY OF AMERICA, Department R3
530 William Penn Place, Pittsburgh, Pennsylvania 15219
Announcing *The Journal of Creative Behavior*

A new quarterly, published by the Creative Education Foundation, through the offices of the Creative Problem-Solving Institute of the State University of New York at Buffalo.

The Journal will focus on articles written for a widely-diversified, serious, general audience, by specialists in the general areas of creativity, intelligence, and problem-solving. It will include a cumulative bibliography, research abstracts, book-reviews, and reports from projects, centers, and conferences.

**The Editorial Advisory Board**
- Frank Barron, *University of California, Berkeley*
- J. P. Guilford, *University of Southern California*
- Harry Hansen, *Harvard Business School*
- Harold F. Harding, *University of Texas at El Paso*
- Abraham H. Maslow, *Brandeis University*
- J. H. McPherson, *Dow Chemical Company*
- Ross L. Mooney, *Ohio State University*
- Leo B. Moore, *Massachusetts Institute of Technology*
- Sidney J. Parnes, *State University of New York at Buffalo*
- Calvin W. Taylor, *University of Utah*
- E. Paul Torrance, *University of Georgia*
- Albert Upton, *Whittier College*
- Frank E. Williams, *Macalester College*

The first issue (December, 1966) will include a major article by J. P. Guilford on developments in the study of creativity.

Subscriptions are $8.00 U.S. per calendar year for four issues.* Manuscripts are invited, and should be sent to E. A. Brunelle, Editor, *Journal of Creative Behavior*, 92 Hayes Hall, State University of New York at Buffalo, Buffalo, New York, 14214; format should be that described in the revised edition of The American Psychological Association *Publication Manual* (1957). Advertising rates available on request. The *Journal of Creative Behavior* will be designed and printed by the Capital City Press, Montpelier, Vermont.

* USA & Canada; $8.50 elsewhere.
Send us your worn, torn, and dog-eared catalog cards.

We’ll send you back crisp clean new ones in 72 hours.

Send us any number of catalog cards, 1,000 or 100,000. Within 72 hours we’ll send you back photo-exact duplicates. As many as you need. And they’ll be in the same order you sent them to us. “A” to “Z” or “Z” to “A”.

Your new cards will be on top-grade Library of Congress approved stock, punched, trimmed and ready for filing. The price. As little as 4½¢ per card.

The Subject Guide to Microforms in Print, 1966/67, is a conventional publication—8½" x 11"—paperbound. It lists publications available on microforms, covering all methods of microreproduction (microfilm, micro-opaque cards, microfiche). It is a companion volume to the Guide to Microforms in Print, listing materials in alphabetic order. The cost is $4.00 with postage paid.

Voltaire, F. Oeuvres Completes. Paris, 1877-85. (4 x 6) $199.00
Look what happens when you put a coin-operated Xerox Copier in your library.

Your readers make their own copies at the push of a button and you keep all the money.

We have two kinds of coin-operated 914's. One charges a dime a copy. The other a quarter a copy. Insert a key and you can make copies for yourself without putting in coins. You don't have to buy the machine. You only pay Xerox for the copies you make, based on a monthly minimum. (All copies count toward the minimum.) The big difference between a coin-operated 914 and a regular 914 is that box full of money at the end of every month. Send in the coupon and we'll send you our brochure: "Keyed To Your Need."
Send to: Xerox Corporation
Midtown Tower, Rochester, N.Y. 14604

Please send brochure: “Keyed To Your Need”
I’m interested in a machine that charges:

☐ 10¢ a copy  ☐ 25¢ a copy.

LOOK
on microfilm

... a permanent record of America's changing moods and manners, morals, and mores. Award-winning photography, combined with award-winning writing have made LOOK one of the most honored magazines of its time. No magazine has reflected America during the past three decades more accurately than LOOK. This unique panorama of what Americans have marveled at, worried about, laughed over, fought against, worked for, and aspired to is now available as a permanent and continuing reference, recorded with the highest fidelity on microfilm.

LOOK on microfilm, 1937 through 1965, is available only from the publishers of LOOK.

For complete details on library purchase plans and prices write:

Why should I invest $275 in a Mini-Graph™?

Because it will save you many times its cost in money and processing time.
The Mini-Graph printing machine is a quiet, efficient, little wizard. It gives you sharp, clear, easy-to-read catalog cards in any desired quantity. Prints two a second.
Anyone can use Mini-Graph. Simply type data on low cost stencil and attach it to the machine. Set the counter for quantity wanted. Press the button. Mini-Graph zips printed cards out at top speed; turns itself off when the run is finished. With Mini-Graph in your library there's no sending work out. No waiting. Books get on the shelves quicker. Complete starter outfit, including machine, stencils, ink, everything for only... $275.
KEEP UP WITH THE Times

...we have 83 of them on microfilm!

(among the 900 dailies from Seattle to St. Petersburg—and from Bangor to San Antonio—all microfilmed by us on a continuing basis)

Why do so many newspapers choose Micro Photo to preserve their newspapers on microfilm?

We like to think it's because we've proven in 20 years of service microfilming that quality is important... and archival quality microfilm is the only kind we supply to our newspaper and library customers.

Subscribe to the microfilm editions of these or any of the over 900 newspapers we preserve on microfilm... and you can also acquire complete microfilm backfiles in most cases.

RENAISSANCE REPRINTS—1500-1700

RENAISSANCE REPRINTS will make available once again important texts in history, political thought and literature now expensive and nigh impossible to find. The best available contemporary edition will be reprinted. Available good modern critical editions will not be duplicated.

Each reprint will have a new introduction by a scholar wherein he will place the text in its historical setting, review the relevant literature, indicate relations to other contemporary tracts and provide a concise bio-bibliography.

The following series will appear:

A. French history and political thought
   Editor: Ralph E. Giesey, University of Minnesota
B. French literature
C. Italian history and political thought
   Editor: Gordon Griffiths, University of Washington
D. Italian literature
E. Spanish history and political thought
F. Spanish literature
   Editor: Otis H. Green, University of Pennsylvania
G. Bibliography
   Editor: Archer Taylor, University of California

Publication opens with Series A. French history and political thought, which first offers the prime sources for Huguenot political thought and activity: the record of a great struggle in the later sixteenth century over the principles of heterodoxy in religion and the right of resistance in politics:

   2 vols. in 1. 380 pp. .................................................. $23.50

   75 pp. ................................................................. $17.50
