MUSEUM of COMPARATIVE ZOOLOGY

HARVARD UNIVERSITY

WE ARE PRIVILEGED to publish the catalogue of this outstanding zoological library. The following information has been provided by Mr. Tomislav Munetic, Librarian:

Since its founding by Louis Agassiz over a century ago, the Museum of Comparative Zoology has been engaged in collecting books in the fields of zoology, paleozoology, and geology relating to paleozoology. Today, the library collection has close to a quarter million volumes and is one of the foremost in the world in its field.

A great part of the library's distinction as a research center is based on its rich holdings of older and often unique materials, especially in serials. At present, the library receives over 2,000 periodicals.

The catalogue of the library contains main entries under author (personal or corporate) or title for all catalogued material in the library, including periodicals, and added entries for joint authors, editors, titles, series, etc. All important monograph series are analyzed. There are no subject entries except for biographies, works about institutions, scientific expeditions, and ships used in such expeditions.

The arrangement of entries is basically alphabetical, with individual works of an author filed in a chronological sequence under the author's name.

While the catalogue, as a working tool, makes no pretense to perfection, it is a useful, indeed the only, key to one of the richest biological libraries in the world.

The estimated 149,000 cards in this catalogue have been reproduced by offset on Permalife paper with 21 cards per 10" x 14" page. The 8 volumes are bound in Class A library binding.

**Catalog of the Library of the
ARCTIC INSTITUTE of North America, Montreal, Canada**

One of the three largest libraries devoted to the polar regions, this is the most complete collection in North America. It is particularly strong in arctic and subarctic material, consisting of some 9,000 volumes and 20,000 pamphlets and reprints. The periodical collection of some 1,200 titles is included, with many analytics for the newer issues. All subjects—scientific (biological, physical and social), technical and general—are represented, including publications in English, Russian, French, German, Danish, Norwegian, Swedish, Finnish, Japanese, etc.

Estimated 70,000 entries, 4 volumes

Prepublication price: \$220.00; after January 31, 1969: \$275.00

Checklist of SOUTHEAST ASIAN Serials
Southeast Asia Collection, Yale University Library

There are at present over 3,800 serials dealing with Southeast Asia in the Yale Library system. This serials collection is notable for its holdings of government documents, society publications, and limited editions of materials published before 1945 in all languages. This checklist includes all serials which deal with Southeast Asia, printed as well as on microform, which have been cataloged before August 1966. Holdings cataloged after that date are given only for those serials housed in the main library. Arrangement of entries is alphabetical by author or title.

Estimated 5000 cards, 1 volume

Prepublication price: \$25.00; after January 31, 1969: \$30.00

**Catalog of Manuscripts of the
MASSACHUSETTS HISTORICAL SOCIETY, Boston**

The Massachusetts Historical Society, the oldest society of its kind in the United States, began collecting historical materials in 1791, the year of its founding. Early in its existence the Society narrowed its collecting aims to historical manuscripts and books and such related materials as would "mark the genius, delineate the manners, and trace the progress of society in the United States." The card catalog is a dictionary catalog with entries under personal and corporate names, and to a lesser degree under subjects and geographical areas.

Estimated 250,000 cards, 7 volumes

Prepublication price: \$520.00; after January 31, 1969: \$650.00

Catalogue of the SINGAPORE/MALAYSIA Collection
University of Singapore Library

The Singapore/Malaysia Collection is particularly strong in source material tracing the various aspects of development of the Malayan States, Singapore and the Bornean regions (excluding Brunei and Indonesian Borneo) from their founding through the period of colonial government up to independence and after. The catalog is essentially a classified one, using the Library of Congress classification system.

Estimated 17,000 cards, 1 volume

Prepublication price: \$80.00; after January 31, 1969: \$100.00

10% additional charge on orders outside the U.S.

Descriptive material on these titles and a complete catalog of publications are available on request.
