Gale's CUMULATION of 1942-62 LC CATALOGS RECEIVES PRAISE FROM USERS

"Revised arrangement aids searching . . ." "Has been worth every cent . . ." "Easy to use . . ."

"Thanks for reconciling inconsistencies . . ."

Gale's edition of the cumulated supplemental LC/NUC author catalogs* solves in logical, professional ways the problems of variant practices, inconsistencies, etc., which plague the users of the four separate supplements—and the value of Gale's consistently arranged, one-alphabet set is now eagerly attested to by hundreds of users.

Because the cumulation represents thousands of professional and technical judgments which have been given permanent usefulness by being issued in printed form, the value of the cumulation is obviously much greater than merely the sum of the value of the individual supplements.

Gale believes, therefore, that owners of the four supplements who have delayed considering the cumulation because "we already have the material" should reconsider their decisions, because while their libraries technically have the same information it is in a form which is expensive to use.

The time of a professional person earning $10,000 per year and working eight hours a day is worth nearly $5.00 per hour. As the testimonials below indicate, users find the Gale cumulation saves them substantial amounts of time. Saving only one hour . . . $5.00 . . . per day by using the Gale cumulation represents a saving of more than $100 per month . . . which is about all that is needed to buy the set as it appears.

These substantial savings begin immediately—and continue for as long as the cumulation is in use. Shouldn't your library begin to take advantage of these savings now?

YOUR FELLOW LIBRARIANS PINPOINT THE WORTH OF GALE'S LC-NUC CUMULATION:

CONSISTENT, WELL-EDITED: "Just having all these supplements in one alphabet is useful enough, but thank you for straightening out various inconsistencies in headings, etc."—C. K. Davis, Technical Services Head, Clark County (Nevada) Library District.

"Due to the revised arrangement of the entries, they are much easier to find."—Frances P. Means, University of Arizona Library, Tucson, Arizona.

"Well edited and accurate."—William A. Fitzgerald, Director, Memorial Library, Marquette University Libraries.

SPEEDS PROCESSING: "It has been worth every cent. It helps us avoid accumulating a backlog of work, saves waiting for LC cards, and lets us get books on the shelves faster."—Edith French Waterman, Chairman, Library Department, The Golda S. Payne Library, Montgomery College, Takoma Park, Maryland.

"We have a favorable impression of the cumulation. It is especially useful for establishing authors and assigning subject headings."—Deborah Doszpoly, Director of Library Services, Philadelphia College of Textiles and Science, Philadelphia, Pa.

VALUABLE RECLASSIFICATION TOOL: "An essential tool in re-classifying to LC."—Sister M. Olivia Kidney, Assistant Librarian, Memorial Library, Mount St. Mary College, Hooksett, New Hampshire.

"Very useful, well done. Very useful in our current project of conversion to LC classification."—Phillip J. Moloso Ill, Library Technical Services

We are pleased to publish the catalog of this outstanding collection. Mr. Sidney Forman, Librarian, has provided the following description:

The Teachers College Library, designed to respond to the instructional and research needs of the faculty and students of Teachers College, Columbia University, provides a collection of over 350,000 books, current and backfile periodicals, and a variety of audiovisual materials in the numerous special fields of education and supporting disciplines.

The collections include basic reference resources dealing with approximately 200 distinct educational systems in the world. Over 1600 periodicals, in many languages, are received. Notable is the most extensive collection in the United States of educational periodicals published in the U.S.S.R. The publications dealing with American elementary and secondary education are exceptionally comprehensive, consisting of original documents, historical and contemporary textbooks, early catalogs and histories of academies and schools, courses of study, surveys, and administrative reports of school systems for all of the states and many major cities. There are other special collections with many unique items for such subjects as adult education, early children's books, English as a second language, and school texts of the Nazi regime.

The Teachers College Library card catalog is in dictionary form and was compiled in accordance with the Rules for filing cards in the dictionary catalogues of the Carnegie Library of Pittsburgh. Subject headings suitable to the use of an education collection were developed from three main sources: Pettus' Subject headings in education, Voegelein's List of educational subject headings and, in recent years, the Library of Congress' Subject headings. Preference has been given to the direct form of subject entry whenever appropriate.

The estimated 630,000 cards in this catalog will be reproduced by offset with 21 cards on a 10" x 14" page. The 36 volumes will be bound in Class A library binding.
