BOOKS BY TITLE: A CATALOG OF LIBRARY OF CONGRESS PRINTED CARDS

Although title arrangements of bibliographic materials often permit simpler, easier, and faster consultation than the more common author arrangements, there has until now been no truly comprehensive published bibliography arranged in title order.

The serious need for such a tool will be met by Gale's forthcoming English Language Books by Title, a catalog based on Library of Congress depository cards arranged by title and reproduced in their entirety (including LC and Dewey numbers and subject tracings). Cards included pertain to works completely or principally in the English language, regardless of place of publication.

THE BASE SET—Covering the years 1969 and 1970, the base set will consist of more than 160,000 entries in 20 volumes. The first two volumes will be ready for shipment in June, 1971; publication of the entire set will be completed before the end of the year. The base set is priced at $380.00.

QUARTERLY SUPPLEMENTS AND ANNUAL CUMULATIONS—Supplements to the base set will appear quarterly; the first supplement will cover January through March, 1971. Each two-volume, paperbound issue will contain about 20,000 entries, or about 80,000 entries a year. Annual cumulations, clothbound, will be issued about four months after the close of each year. The annual subscription to the quarterly supplements is $150.00 per year; the annual cumulation also costs $150.00 per year.

ADVANTAGES OF THE TITLE APPROACH—In addition to those already mentioned, some of the more prominent advantages of the title approach are that it will:

. . . simplify searching and permit use of subprofessionals for this function
. . . make possible the immediate preparation of catalog cards by the Polaroid process or similar methods
. . . include under their titles government publications and publications of corporate authors which are not listed at all in some bibliographies
. . . give an alternate point of entry and enable the determination of LC card order number when the author is uncertain or incorrectly cited
. . . help eliminate confusion when main entry information in inter-library loan requests does not correspond with main entry established by the lending library
. . . in general, give added flexibility to search and research activities which until now have been handicapped by the almost exclusive use of author names as the basis for organizing catalogs and indexes

TYPES OF PUBLICATIONS INCLUDED—Included among the 80,000 titles to be covered annually in the new Gale publication will be the following types of material, many not covered in any other source providing title access: books, monographs, and periodicals; publications of university presses, institutes, research units, etc.; local, state, federal, and foreign government publications; maps, reports, and pamphlets; reprints; publications in microform; and other published materials in English cataloged by LC, regardless of publisher or country of origin.

FURTHER INFORMATION—Please write for a detailed brochure describing the catalog, the professional staff involved in its preparation, and the trial plan under which the catalog may be used free for 90 days. For immediate answers call Robert Cartwright collect at (313) 961-2242.

Nonetheless, he does enjoy a nice drive in a good car.
This may surprise a certain motorcar manufacturer. In recent national ads, they declared that their automobile was so “hairy” in appearance and performance that it might scare off librarians.
Then they apologized. They ran a special ad in American Libraries and said they regretted having implied “the old stereotype of librarians” and even added that “librarians aren’t all timid, stuffy, and conservative.”
Some apology.

We work with you every day. We know that there is no stereotype librarian. Neither in the personality you bring to the job nor outside of the job. Just offhand, besides Mr. DeStephen with his joyriding, we know a professional librarian who’s a footracer and singer, and another one, female, who’s a skydiver. Librarians are no more of a kind than are butchers or bakers or automobile makers.
