## GALE'S 152-VOLUME CUMULATION OF LC/NUC 1942-62 AUTHOR LISTS IS NOW READY FOR IMMEDIATE USE AND SAVINGS!

All 152 volumes in Gale's *LC-NUC Master Cumulation* have now been published and are ready for immediate shipment.

Librarians who used the set as it was being published have enthusiastically attested to its time-saving features and the quality of the editorial work, and those who have delayed ordering until all the volumes were ready may now buy and use the cumulation with complete confidence in its bibliographic worth.

Users report that the cumulation significantly streamlines processing procedures and drastically reduces search time. Many have praised the work for such unique qualities as its value as a reclassification tool, its revised and improved arrangement, its added cross references and notes, and its usefulness in establishing authors and assigning subject headings.

The value of the cumulation is much greater than merely the sum of the value of the individual supplements because the cumulation represents thousands of professional judgements which solved problems of variant practices and inconsistencies that plague users of the four separate supplements. Thus, owners of the separate supplements should seriously consider the purchase of the vastly superior cumulation.

Gale's *Library of Congress and National Union Catalog Author Lists, 1942-1962: A Master Cumulation*, embraces these four supplements to *A Catalog of Books Represented by Library of Congress Printed Cards*:

- \* *Catalog of Books Represented by Library of Congress Printed Cards—Supplement (1942-1947)*
- \* *The Library of Congress Author Catalog, 1948-1952*
