

"Ever since CHOICE first began to appear I have felt that it offered an unusually fine opportunity for articles by high school librarians to critical reviews of books that should be considered for purchase in many schools . . . **CHOICE is therefore in my opinion of vital importance for any secondary school in order to assure wise choice of subject materials.** In addition, the specialized lists and other information regularly carried in the preface of each issue . . . are almost worth the cost of a subscription alone."

— **Mary V. Gaver**, *Professor Emeritus, Rutgers University Graduate School of Library Service*

CHOICE reviews more adult books — and, in particular, more books of school interest — than any other reviewing medium in the United States. **CHOICE** evaluations are succinct and unbiased, placing each book clearly within the literature of its field and indicating its appropriate readership level. All bibliographical information (including Cataloging-in-Publication data) is entered, in standard library format for easy reference. As an extra bonus, **bibliographical essays** in each issue examine important works in areas of current curriculum interest.

"No other publication is as current and authoritative as **CHOICE**. It is **essential for book selection in all secondary school libraries**. With recent trends in curriculum development, librarians will find it especially useful for the social and pure and applied sciences."

— **John Rowell** (former President of AASL)
Director, School Library Program
and Professor of Library Science,
Case Western Reserve University
