Encyclopedia of Associations

16th Edition

Over 90% of the entries in the 16th edition have been revised to reflect new addresses, phone numbers, executive names, or other important items of information. For over 25 years EA has been the standard reference book for locating those associations that information seekers turn to for highly qualified sources. The new, 1982 edition tells you exactly whom to write, phone, or visit for information too fresh to appear in books and periodicals.

Vol. 1 • National Organizations of the U.S.

Describes 15,400 organizations in 17 subject categories. Entries give official name of group, popular name or acronym, address, phone number, chief executive, number of members, dues, publications, convention schedule, and more. Includes massive 47,000-line keyword/alphabetical index. ISBN 0-8103-0144-X. \$135.00.

Vol. 2 • Geographic and Executive Indexes

Lists in both indexes give organization name, chief executive, address, phone number, and the entry number of the more detailed organization entry in Volume 1. 900pp. ISBN 0-8103-0145-8. \$120.00.

Vol. 3 • New Associations and Projects

An inter-edition, cumulatively indexed supplement that reports on new groups concerned with the latest problems and ideas. ISBN 0-8103-0130-X. Subscription, \$135.00.

EA is available on Standing Order. (5% discount for Standing Orders.)

All Gale books are sent on 90-day approval.

Customers outside the U.S. and Canada add 10%.

Reviewers Praise EA

Reference and Subscription Books Reviews: "Indispensable. . . . As a result of the work's current and extensive coverage and the continuing high demand for the type of data found in the *Encyclopedia of Associations*, it remains one of the most useful and essential titles in any library's reference collection." (*Booklist*, April 1, 1979)

American Reference Books Annual 1981: "This is the only comprehensive source of detailed information concerning American national, nonprofit membership organizations. . . . This well-known reference set is heavily used in almost all libraries."
