The cost of acquiring, binding and maintaining your library's serials collection can consume an increasingly larger portion of your operating budget. Some libraries have been forced to discontinue certain serials in order to accommodate funding cutbacks.

Serials in microform are generally available for substantially less than bound volumes.

This means that you can continue to provide a depth of thought and divergence of opinion in your serials collection within your imposed budget restrictions.

Serials in microform are a sensible way to live with today's economic pressures while you build for tomorrow. See for yourself. Call or write for full details on UMI's microform serials management system.
