The world of art is constantly expressing itself in new forms. ART INDEX has managed to keep pace with the art world by increasing its periodical indexing coverage to 202 important art periodicals—an increase of 70 additional periodicals. The increased coverage largely reflects art world expansion in the areas of crafts, graphic arts, film, and photography.

New periodical titles now indexed by ART INDEX include American Cinematographer, American Film, Aperture, Architecture, Ceramic Review, Crafts, Graphic Design, Image, Stained Glass, Winterthur Portfolio, and 60 more.

Articles from these additional periodicals, as well as from those previously covered, are indexed by the author's name, specific subject headings, and other appropriate headings. All entries are in one alphabet, and complete bibliographic information is given for each entry. Cross-references lead from individual subject headings to additional related headings.

ART INDEX is published quarterly, January, April, July, and October with permanent bound annual cumulations.

ART INDEX is sold on the service basis, a unique method of pricing developed by The H. W. Wilson Company. Although all subscribers receive the complete indexing service, each subscribing library pays only for the indexing of those periodicals to which it subscribes.

All permanent volumes of ART INDEX are now available. Volumes 1-18, covering the period 1929-1970, are in print and may be purchased on a flat rate basis. You may conveniently complete your collection or replace worn copies.

Help your patrons keep pace with the art world. Let ART INDEX do the job for you.

Gale Research Company is pleased to announce that agreement has been concluded under which it has exclusive Western Hemisphere distributive rights to library reference books published by K.G. Saur-Verlag, headquartered in Munich.

Gale is now your source for titles of three major European publishers. Since Gale already distributes books from Euro Publications and CBD Research, both of Britain, this latest arrangement with Saur is one more important step toward enabling librarians to consolidate their orders for major reference titles from Europe.

Like Europa and CBD books, Saur books are now stocked in Detroit ready for prompt delivery. New editions will be airfreighted to Detroit in bulk so you will not have to wait for sea mail or pay premiums for air shipment of individual copies.

Write for the checklist of all Saur titles distributed by Gale. (SO) These titles are available at Gale’s 5% Standing Order discount. All books published and distributed by Gale are sent on 90-day approval. Customers outside the U.S. and Canada add 10% to prices shown.
