College & Research Libraries is the official journal of the Association of College and Research Libraries, a division of the American Library Association. It is published bimonthly at 50 E. Huron St., Chicago, IL 60611. Second-class postage paid at Chicago and at additional mailing offices. POSTMASTER: Send address changes to College & Research Libraries, 50 E. Huron St., Chicago, IL 60611.

Manuscripts of articles and copies of books submitted for review should be sent to the Editor: C. James Schmidt, Editor, College & Research Libraries, 50 E. Huron St., Chicago, IL 60611.

Instructions for authors: Manuscripts are to be typewritten, double-spaced, and submitted in three copies. The title, name, and affiliation of the author and an abstract of 75 to 100 words should precede the text. Bibliographical references are to be consecutively numbered throughout the manuscript and typewritten, double-spaced, on a separate sheet or sheets at the end. The journal follows A Manual of Style, 12th ed., rev. (Chicago: Univ. of Chicago Pr., 1969), in matters of bibliographical style. Authors may consult recent issues of the journal for examples of the style. Further information on submission of manuscripts is included in a statement in College & Research Libraries 41:67-68 (Jan. 1980).

Production and circulation office: 50 E. Huron St., Chicago, IL 60611. Advertising office: Leona Sweich, Advertising Traffic Coordinator, 50 E. Huron St., Chicago, IL 60611. Change of address and subscription orders should be addressed to College & Research Libraries, for receipt at the above address, at least two months before the publication date of the effective issue.

Annual subscription price: to members of ACRL, $12.50, included in membership dues; to nonmembers, $25. Retrospective subscriptions not accepted. Single copies and back issues, $5 each.

Inclusion of an article or advertisement in C&RL does not constitute official endorsement by ACRL or ALA.

A partial list of the services indexing or abstracting the contents of C&RL includes: Current Index to Journals in Education; Information Science Abstracts; Library & Information Science Abstracts; Library Literature; and Social Sciences Citation Index. Book reviews are included in Book Review Digest, Book Review Index, and Current Book Review Citations.

STANDING ORDERS:
THE ULTIMATE TEST OF YOUR BOOKSELLER.

Certainly at Blackwell North America we are proud of all the services we offer as a leading bookseller. But none of them is more demanding of our people and inter-active computer system than our standing order service for books in series.

Kathleen Olesen, at right, and her staff maintain our computer-based history of over 20,000 active series. It is a proven system, and goes back farther than any other—a full ten years. Here's what it means to our standing order customers.

First, oversights are virtually eliminated. As new titles are reviewed by our staff, those which are part of a series are immediately routed to Standing Orders for history verification.

Second, as a major book buyer, we combine efficiency and clout.

We order in volume from all publishers, and sell at competitive prices. Unlike periodical vendors, we do not drop ship books in series. You benefit from timely series shipments with a single invoice.

Third, duplication is eliminated. Our computer system guarantees that you will not receive series volumes on approval if you have a standing order for the series. This simplifies life, and means higher efficiency for us both.

Fourth, our monthly microfiche updates 20,000 series records and assists in record keeping and ordering. Also available on request is a library-specific hard copy standing order record that can be tailored for main and branch libraries.

But the most important test we pass is this: We understand the needs of serials librarians, and attend to them personally. Call your Regional Sales Manager or nearest distribution center toll free and have them put Kathleen Olesen to the test today.

Options for the 80s

The second national conference of the Association of College and Research Libraries, which was held in Minneapolis, Minnesota, October 1–4, 1981, had as its theme "Options for the 80s"—an attempt to look at the choices confronting higher education and academic librarianship in the next decade. Five speakers were invited to address this topic from the perspectives of the federal government, the research university, the liberal arts college, an academic discipline, and the academic library. The texts of these presentations follow.
