The Indispensable Cataloging Tool

New 12th Edition

Sears List of Subject Headings

Edited by Barbara M. Westby

Sears List of Subject Headings has long been an indispensable aid to librarians, both as a cataloging tool and as a handbook of cataloging and classification. The NEW Twelfth Edition repeats the high quality of past editions and adds these important new features:

- Principles of cataloging and classification updated to conform with AACR 2.
- New and expanded subject headings include young-adult topics, current social issues, scientific concerns, and more.
- Increased and more specific cross-references.
- Dewey numbers carried to as many decimal places as necessary to provide specificity.
- An expanded "List of Subdivisions."

As with previous editions, the Twelfth Edition is an integrated subject heading list in one convenient volume. It is also printed in a one-column-to-a-page format, which allows for the addition of new subject headings to meet the needs of individual libraries.

624p. 1982. (0-8242-0676-2).
\$25, U.S. and Canada; \$30, other countries.
