

THE ONLY REAL DIFFERENCE BETWEEN DATAPHASE AND THE COMPETITION.

All library companies boast their service, training and fancy new hardware (we think ours is better than theirs).

But once a system is operational, there's only one thing that counts.

The software.

And, when you talk about software capability, DataPhase has no equal. Not CLSI. Not GEAC. Not any software developed by any independent software development team.

- No other vendor offers so much full integration of the modules.
- No other vendor has detailed the functions so thoroughly.
- No other vendor has built its software around complete library flexibility through parameterization.
- And no other vendor designed its entire product around the support of the full MARC record.

When it comes right down to it, the only real difference between library computer systems costing hundreds of thousands of dollars is found on a \$40 reel of tape.

We invite you to compare the software capabilities offered to your library by the Automated Library Information System. ALIS' integrated modules include Circulation, Bibliographic Control (MARC), Acquisitions and Booking.

For more information, you can reach a sales representative at 816-931-7927.

YOU NEED TO KNOW THE DIFFERENCE.

DataPhase

NEW BOOKS FROM GALE

All Gale Reference Books Are Sent on 60-Day Approval
