SUBMITTING MANUSCRIPTS

Manuscripts of articles are to be sent to the editor, Charles Martell, Jr., c/o The Library, 2000 Jed Smith Dr., California State University, Sacramento, CA 95819.

Instructions for Authors

In preparing articles to be submitted for publication in College & Research Libraries, please follow these procedures:

1. Submit original, unpublished articles only. Authors are responsible for the accuracy of the statements in their articles. If the paper has been presented at a conference, identify the conference by name and date in a cover letter.

2. Manuscripts are to be typewritten, double-spaced, and submitted in three copies. The title, name, and affiliation of the author and an abstract of seventy-five to one hundred words should precede the text. Do not repeat this information elsewhere in the text. Manuscripts usually range in length from one thousand to five thousand words, although longer manuscripts are occasionally received.

3. Bibliographical references are to be consecutively numbered throughout the manuscript, and typewritten, double-spaced, on a separate sheet or sheets at the end of the article.

4. Consult Webster's Ninth New Collegiate Dictionary (supported by Webster's Third International) for spelling and usage; prefer the first spelling if there is a choice. Verify the spelling and accuracy of names in an appropriate reference.

6. In general follow the practices recommended by The Chicago Manual of Style with these exceptions: Cite journal articles according to: author’s first name or initials, author’s surname, title of article, title of journal volume: page references (issue date). For example:

For subsequent references to a previously cited work, the surname of the author(s), a shortened form of the title, and the page reference are enough. Do not use op. cit. or loc. cit. For example:

If no other reference intervenes, use "Ibid." to take the place of the elements of the previous reference that apply. Do not underline "Ibid." Do underline or quote all titles in both references and bibliographies. Number items as 1., 2., etc., but do not use superscript numbers. Use p.726-30, not pp. 726-730, for citations to a book or journal when listing page numbers. Abbreviate volume as V.2 or 2v. However, it is not necessary to give total number of pages or volumes when a reference cites an entire work. VERIFY ALL CITATIONS CAREFULLY.

7. Submit all tables and illustrations at the end of the paper, each on a separate page. Indicate the desired placement in the text by adding an instruction in brackets, e.g., (Insert table 2). Provide a brief title for each illustration or table. Type all tables double-spaced and follow the examples in The Chicago Manual of Style in constructing the tables, omitting the vertical lines to indicate columns. Use tables sparingly.
8. Submit original, camera-ready art for illustrations, figures, and graphs. Please protect camera-ready copy when mailing your manuscript. All original, camera-ready art will be returned to the author(s) after publication.

SUBJECT CONTENT

*College & Research Libraries* includes articles in all fields of interest and concern to academic and research librarians—for example, library collections, their acquisition and organization; services to readers and bibliographic instruction; library organization and management; library buildings; library history. In its treatment of a subject, the manuscript may employ a number of different approaches, for example, a case study or a descriptive or historical narrative, an article expressing informed opinion on a matter of continuing interest, a report on the procedures and results of a controlled research project.

REVIEW OF MANUSCRIPTS

Manuscripts received are given an initial review by the editor, and those selected for further review are submitted to at least two readers, generally from members of the Editorial Board. Names of authors are removed from the manuscript, and thus author identification should be on the first page of the manuscript only. Insofar as possible, other items in the manuscript that identify the author (e.g., a bibliographical reference) are blocked out by the editor prior to submission for formal review.

When the review is completed, generally in ten to twelve weeks, the editor notifies the author. An author is not to submit a manuscript to another publication while it is under review by *College & Research Libraries*.

In their review the readers will direct their attention to the content and style of the manuscript, addressing such questions as the following: Does the manuscript make a substantially new contribution to the literature? As for the method employed, is it appropriate to the subject, and does the author demonstrate competence with it? Is the author then able to communicate findings clearly to an educated yet not necessarily specialized audience? Does the author demonstrate through a review of the literature and other developments how the research or opinions here presented relate to them?

PUBLICATION

If accepted for publication, the manuscript is generally published from ten to twelve months after acceptance (depending on the supply of accepted manuscripts). The manuscripts will be edited to conform to the style of the journal, and the editor may offer recommendations to the author on changes to make.

Articles published in *College & Research Libraries* are copyrighted by the American Library Association, and subsequent inquiries for reprinting articles are referred to the ALA Office of Rights and Permissions. All material in the journal subject to copyright by the American Library Association may be photocopied for the noncommercial purpose of scientific or educational advancement.

LETTERS

Readers are invited to comment on articles in the journal through letters addressed to the editor. It is recommended that such communications be as short as possible and no longer than two hundred words. All letters should be typewritten, double-spaced. A letter commenting on an article in the journal is shared with the author, and a response from the author may appear with the letter.

REVIEWS

*College & Research Libraries* includes reviews and listings of new publications of interest to academic and research librarians. Publishers are invited to send review copies of their publications as well as announcements to the editor (Charles Martell, Jr., c/o The Library, 2000 Jed Smith Dr., California State University, Sacramento, CA 95819).

Readers wishing to review books for the journal are invited to write to the editor indicating their special areas of interest and qualifications.
Index to Vol. 44
College & Research Libraries
Prepared by Eldon W. Tamblyn

FILING
Filing is word-by-word

ABBREVIATIONS
Standard abbreviations are used except in titles. Names of some organizations, ALA, ACRL, LC, etc., are also abbreviated and are alphabetized as if spelled out.

EDITOR’S NOTE
Pages for the July 1983 issue (vol. 44, no.4) were misnumbered and duplicate page numbers 197-284 of the May issue (vol. 44, no.3). In this index the duplicated page numbers for the July issue are shown in the following manner: 199-209 (July); 210-19 (July); etc.

A
AACR2 headings: a five-year projection of their impact on catalogs, Dowell, rev. of, 292
Abstracts, 86-94, 189-95, 275-80, 303-12, 395-402

The new computer-produced Library of Congress National Union Catalogs on Advanced Library Systems microfiche offer expanded coverage, more flexibility, more convenience and more effective searching capability than has ever been possible before. Yet the low cost makes them accessible to libraries of all types and sizes.

State-Of-The-Art Efficiency For Your Library.

The new NUC Books is in index/register format. Now you can search the comprehensive collection of current catalog records produced by the Library of Congress and some 1500 North American libraries not only by name, but by title, subject and series as well. The indexes are cumulated each month. A single look-up will complete a search in most cases. The full bibliographic record can then be located in the register in seconds. The full bibliographic record can then be located in the register in seconds.

The new NUC microfiche can be used alone as a primary bibliographic source, or to complement your other bibliographic tools for cataloging, acquisitions, interlibrary loans, bibliographic verification, reference and research.

Current LC Subscriptions/Free Trial.

ALS can also provide current subscriptions to the LC NUC U.S. Books; Audiovisual Materials; Music, Books on Music and Sound Recordings; Cartographic Materials; Register of Additional Locations; LC Subject Headings; and Name Authorities. ALS offers a free 30-day trial to introduce you to the benefits of a current subscription.

Retrospective LC Catalogs.

ALS is the only source for the complete microfiche retrospective collection of the LC NUC from 1898; Subject Catalog from 1950; Audiovisual Materials from 1953; and Music, Books on Music and Sound Recordings from 1953. Our new, low prices make it possible for more librarians to acquire the complete collection or individual segments.

This year, take a giant step toward better bibliographic control. Keep your National Union Catalogs on ALS microfiche. They’re surprisingly affordable. They reduce shelf space over paper catalogs by 94%. And they offer more efficiency than ever before.

The Biggest Advance In Bibliographic Control Is Just One Small Step Away.
Historical development, current practices, evolving concerns—all are treated in ALA publications for the academic library community.

The Carnegie Corporation and the Development of American College Libraries, 1928-1941
by Neif A. Radford.
(ACRL Publications in Librarianship no. 44)
Carnegie grants in excess of one and a half million dollars to 248 institutions for collection development focused attention on the importance of academic libraries. The book provides a useful historical perspective on collection analysis and external library funding.

Leaders in American Academic Librarianship, 1925-1975
(Beta Phi Mu Chapbook no. 16)
Fifteen essays assessing the impact of pre-eminent academic librarians: Robert Downs, Keyes Metcalf, Louis Round Wilson, Ralph Ellsworth, Blanche McCrum, Ralph Shaw, Robert Vosper, William Dix; Maurice Tauber; Charles Harvey Brown, Guy Lyle; Lawrence C. Powell; Jerrold Orne, Stephen McCarthy; Lillian B. Griggs.

Online Searching Technique and Management
edited by James J. Maloney.
All facets of reference service using online searching, from the reference interview to financial management, are treated in this collection of seventeen papers.

Automated Circulation: An Examination of Choices
edited by Joseph R. Matthews and Kevin E. Hegarty.
Papers presented by librarians, consultants, and vendors at a LAMA-sponsored conference treat all aspects of automation of circulation, from choice among turnkey, custom, and adapted systems to implementation and financing in single institutions and networks and consortia.

The Landscape of Literatures: Use of Subject Collections in a University Library
by Paul Metz.
(ACRL Publications in Librarianship no. 43)
Uses data on over 55,000 books charged to 10,000 patrons in two academic libraries to clarify the problems of branch structure.

Please write to request your copy of the 1984 ALA Checklist of Publications and the new catalog Sources in Librarianship and Information Science.
WHY WE WERE THE FIRST LIBRARY AUTOMATION COMPANY TO SUPPORT THE FULL MARC RECORD.

DataPhase was the first to provide many currently accepted preferences for library automation software.

We were the first to design an integrated system with extensive interaction and information sharing among all online functions.

We were the first to provide a flexible parameterization capability that enables the library to change any systemwide parameter.

And we were the first to design a system that takes full advantage of the abundance of access points available in a MARC database. Access points that are critical for successful inquiry and online catalogs.

Sensitivity to present and future library needs has made DataPhase the leader in library automation. And ALIS the most powerful library automation tool available today.

ALIS' integrated functions include Circulation, Technical Services, Acquisitions, Public Access Catalog, Materials and Film Booking, Authority, Inventory, Reserve Book Room and C.O.M. Support.

For more information, you can reach a marketing representative at 816-931-7927.

YOU NEED TO KNOW THE DIFFERENCE.
