SUBMITTING MANUSCRIPTS

Manuscripts of articles are to be sent to the editor, Charles R. Martell, c/o The Library, 2000 Jed Smith Dr., California State University, Sacramento, CA 95819.

Instructions for Authors

In preparing articles to be submitted for publication in College & Research Libraries, please follow these procedures:

1. Submit original, unpublished articles only. Authors are responsible for the accuracy of the statements in their articles. If the paper has been presented at a conference, identify the conference by name and date in a cover letter.

2. Manuscripts are to be typewritten, doublespaced, and submitted in three copies. The title, name, and affiliation of the author and an abstract of seventy-five to one hundred words should precede the text. Do not repeat this information elsewhere in the text. Manuscripts usually range in length from one thousand to five thousand words, although longer manuscripts are occasionally received.

3. Bibliographical references are to be consecutively numbered throughout the manuscript, and typewritten, doublespaced, on a separate sheet or sheets at the end of the article.

4. Consult Webster's Ninth New Collegiate Dictionary (supported by Webster's Third International) for spelling and usage; prefer the first spelling if there is a choice. Verify the spelling and accuracy of names in an appropriate reference.

6. In general follow the practices recommended by The Chicago Manual of Style with these exceptions: Cite journal articles according to: author's first name or initials, author's surname, title of article, title of journal volume: page references (issue date). For example:

For subsequent references to a previously cited work, the surname of the author(s), a shortened form of the title, and the page reference are enough. Do not use op. cit. or loc. cit. For example:

If no other reference intervenes, use "Ibid." to take the place of the elements of the previous reference that apply. Do not underline "Ibid." Do underline or quote all titles in both references and bibliographies. Number items as 1., 2., etc., but do not use superscript numbers. Use p.726-30, not pp. 726-730, for citations to a book or journal when listing page numbers. Abbreviate volume as V.2 or 2v. However, it is not necessary to give total number of pages or volumes when a reference cites an entire work. VERIFY ALL CITATIONS CAREFULLY.

7. Submit all tables and illustrations at the end of the paper, each on a separate page. Indicate the desired placement in the text by adding an instruction in brackets, e.g., [Insert table 2]. Provide a brief title for each illustration or table. Type all tables double-spaced and follow the examples in The Chicago Manual of Style in constructing the tables, omitting the vertical lines to indicate columns. Use tables sparingly.
8. Submit original, camera-ready art for illustrations, figures, and graphs. Please protect camera-ready copy when mailing your manuscript. All original, camera-ready art will be returned to the author(s) after publication.

SUBJECT CONTENT

College & Research Libraries includes articles in all fields of interest and concern to academic and research librarians—for example, library collections, their acquisition and organization; services to readers and bibliographic instruction; library organization and management; library buildings; library history. In its treatment of a subject, the manuscript may employ a number of different approaches, for example, a case study or a descriptive or historical narrative, an article expressing informed opinion on a matter of continuing interest, a report on the procedures and results of a controlled research project.

REVIEW OF MANUSCRIPTS

Manuscripts received are given an initial review by the editor, and those selected for further review are submitted to at least two readers, generally from members of the Editorial Board. Names of authors are removed from the manuscript, and thus author identification should be on the first page of the manuscript only. Insofar as possible, other items in the manuscript that identify the author (e.g., a bibliographical reference) are blocked out by the editor prior to submission for formal review.

When the review is completed, generally in ten to twelve weeks, the editor notifies the author. An author is not to submit a manuscript to another publication while it is under review by College & Research Libraries.

In their review the readers will direct their attention to the content and style of the manuscript, addressing such questions as the following: Does the manuscript make a substantially new contribution to the literature? As for the method employed, is it appropriate to the subject, and does the author demonstrate competence with it? Is the author then able to communicate findings clearly to an educated yet not necessarily specialized audience? Does the author demonstrate through a review of the literature and other developments how the research or opinions here presented relate to them?

PUBLICATION

If accepted for publication, the manuscript is generally published from ten to twelve months after acceptance (depending on the supply of accepted manuscripts). The manuscripts will be edited to conform to the style of the journal, and the editor may offer recommendations to the author on changes to make.

Articles published in College & Research Libraries are copyrighted by the American Library Association, and subsequent inquiries for reprinting articles are referred to the ALA Office of Rights and Permissions. All material in the journal subject to copyright by the American Library Association may be photocopied for the noncommercial purpose of scientific or educational advancement.

LETTERS

Readers are invited to comment on articles in the journal through letters addressed to the editor. It is recommended that such communications be as short as possible and no longer than two hundred words. All letters should be typewritten, double-spaced. A letter commenting on an article in the journal is shared with the author, and a response from the author may appear with the letter.

REVIEWS

College & Research Libraries includes reviews and listings of new publications of interest to academic and research librarians. Publishers are invited to send review copies of their publications as well as announcements to the editor (Charles R. Martell, c/o The Library, 2000 Jed Smith Dr., California State University, Sacramento, CA 95819).

Readers wishing to review books for the journal are invited to write to the editor indicating their special areas of interest and qualifications.
YOU AND YOUR STAFF now can stay continuously in touch with current Federal technical information through Government Reports Announcements and Index (GRA&I).

Each journal contains about 2,500 bibliographic citations, biweekly, of recently completed research compiled and published by the National Technical Information Service (NTIS). A subscription to GRA&I means an automatic technological update every two weeks.

And every GRA&I journal includes these five indexes to provide easy access to and selection of just the reports you need:

- Keyword
- Personal Author
- Corporate Author
- Contract/Grant Numbers
- Accession/Report Numbers

In the course of a year's subscription you can turn to some 70,000 technical reports of research carried on in the labs of Federal agencies, universities, and industry. And GRA&I can be a helpful guide to the NTIS Bibliographic Data Base online.

Discover the single-source guide to a wealth of new technology including:

- Aeronautics • Agriculture • Astronomy & Astrophysics • Atmospheric Sciences • Behavioral & Social Sciences • Biological & Medical Sciences • Chemistry • Earth Sciences & Oceanography • Electronics & Electrical Engineering • Energy Conversion • Non-Propulsive • Materials • Mathematical Sciences • Mechanical, Industrial, Civil & Marine Engineering • Methods & Equipment • Military Sciences • Missile Technology • Navigation, Communications, Detection & Countermeasures • Ordnance • Physics • Propulsion & Fuels • Space Technology.

Tests  

Over 3,000 tests used in psychology, education, and business are thoroughly described and evaluated in this new reference work. Entries are grouped for productive browsing in 62 subcategories under the three main classifications: Psychology, Education, and Business. Entries furnish enough information about each test to provide a basis for evaluation, including the test’s purpose, a description, relevant cost and availability information, appropriate level, and whether the test is self-administered. Six indexes: Categories/subsections, Title, Author, Publisher, Scoring Services, and Visually Impaired.

Commonwealth Universities Yearbook 1984  
...A Directory to the Universities of the Commonwealth and the Handbook of Their Associations. 60th ed. Edited by A. Christodoulou and T. Craig. 2,600pp. in 4 softbound vols. Indexes. Association of Commonwealth Universities, 1984. Distributed in the U.S. exclusively by Gale. ISSN 0069-7745. $170.00/set. (SO)  

This authoritative reference source is updated annually and provides details on more than 360 institutions of higher learning located throughout the British Commonwealth. Up to 60 types of information are furnished for each institution, including descriptions of degree programs, complete academic staff, statistics, publications, costs, exchange programs, calendar, research, financial aid, and more. A comprehensive material includes essays on education in specific countries, appendices covering scholarships, admission requirements, etc.

World Armies  

Now among the most powerful and significant institutions in international relations, armies consume enormous portions of national budgets and exert tremendous influence in economics, politics, and society. This work is a comprehensive reference source for information on the armies, military establishments, military histories, equipment and operations, and related subjects for every nation of the world. Numerous maps identify areas of military significance in today’s world, and photographs provide a visual record of commonly used military equipment.
