# Scientific and Technical Organizations and Agencies Directory

1st edition — Just Published

**The first  
of its  
kind**

1st Edition. Edited by Margaret L. Young. Over 12,000 entries in about 1,000 pages. Master Index of Organization Titles and Keywords. \$125.00. Available at Gale's 5% Standing Order Discount. **(Just Published)**

Now available, the first comprehensive guide to all types of sources of information in the physical and applied sciences. This single source provides descriptions and contact information on 12,000 organizations in the fields of science and technology including: 1,109 science, engineering, and technical organizations that develop industry standards, conduct research, and engage in laboratory testing; 2,785 federal government and university research centers; 240 federal government agencies; 1,450 state agencies concerned with science and technology; 1,700 consulting firms; 700 computer information service organizations; 210 federal grants and domestic assistance programs; 2,350 technical libraries and information centers as well as 108 Local Public Document Rooms established by the U.S. Nuclear Regulatory Commission; 457 accredited institutions leading to degrees in engineering and engineering technology; 500 standards organizations; and 75 patent services and information organizations.

Detailed entries furnish organization names, addresses, telephone numbers, contacts, and, when appropriate, descriptions of the purposes, services, areas of expertise, publications, staff, committees, and sources of support. The Master Index facilitates access to the entries through its name and keyword arrangement.
