Play Index 1983-1987

A 39-Year Run As the Best Source on the Subject

For nearly 40 years, teachers, students, librarians, drama coaches, theatre groups, theatre aficionados, directors, producers, performers, playwrights, and researchers have all turned to Play Index for its unrivalled wealth of information about plays and where to find them. Now Play Index 1983-1987, the latest volume in the series, brings researchers up to date with references to 3,964 new and previously published plays appearing in new collections, published over the past five years. From puppet plays to classical drama, Play Index covers the full complement of theatrical works, including TV and radio plays as well as the legitimate theatre.

Locate Plays by Author, Title, Theme, or Genre

With a minimum of time and effort you can use Play Index to acquire the maximum amount of information about a given play or playwright. Author, Title, Subject, and Dramatic Style (e.g., musical, tragedy, parody) entries for each play are offered in a single, easy-to-use alphabetical listing. Access is also provided to plays in a distinctive form, such as one-act plays and plays in verse. The author entry provides a full bibliographic citation, a descriptive annotation, and an indication of the number of acts and scenes, size of cast, number of sets, and dances or music required. Symbols identify plays suitable for children or young people. Separate sections offer a cast analysis arranged by the sex and number of performers needed, a list of collections indexed, and a directory of publishers and distributors.

More Than 26,000 Plays Indexed in Seven Volumes

Each of the seven volumes of Play Index stands alone as a comprehensive record of the plays published during the time period it covers, and does not duplicate information contained in preceding volumes. Together, the seven volumes form a continuous collection of data about more than 26,000 plays published over 39 years.
