

# *Librarians in the U.S. and Canada... there is a foreign agent in your midst!*

But not under cover...

In fact we are quite open about it:  
For outstanding management of  
subscriptions to all your foreign journals,  
there is really only one source  
you should consider...

## Where can you find statistics on the weight, capacity, and fuel requirements of trucks in Belgium?

Next time you face a tough question, next time you need an answer other print and electronic indexes can't provide, start your search where you're bound to find the right answer: PAIS. Only PAIS' acclaimed public/social policy indexes give you:

- Selective coverage of the public/social aspects of business, economics, finance, law and legislation, international trade and relations, public health, and much more.
- Eclectic coverage of literature published around the world in English, French, German, Italian, Portuguese, and Spanish.

- Precise indexing of monographs, periodicals, directories, government documents—in all, nearly 300,000 stringently edited items in the electronic formats and more than one million items in the print indexes.

- A treasure trove of references to hard-to-find statistics, demographics, business trends, and background information.
- The indexing format that meets your needs best: print, online, or CD-ROM.

For more information on PAIS' family of public/social policy indexes, call today.

## Systems Without Standards Miss the MARC.

MOST LIBRARY AUTOMATION VENDORS  
WOULD LIKE YOU TO BELIEVE THAT THEY  
NOW SUPPORT THE MARC STANDARD.  
UNFORTUNATELY, SOME OF THEM  
HAVE BEEN SHOOTING YOU A LINE.

■

**A**DHERENCE TO MARC, and to all library-developed standards, is the only true measure of a vendor's commitment to academic libraries and academic librarians. Adherence to standards is also the only way an academic

library can guarantee the long-range success of its automation system. **CAMPUS-WIDE NETWORKING**, for example, as well as the ability to access off-campus data sources, requires careful adherence to automation communications standards. Data Research's use of Ethernet and DECnet/OSI provides you with that power *now*. **SUPPORT OF YOUR CHOICE** of workstations from a wide variety of vendors is also possible using **ATLAS—A Total Library Automation System** from Data Research—because of our support of communications standards. **SPECIALIZED DATABASES** can be easily built, fully indexed and even made available through the Public Access Catalog because of our use of full-MARC bibliographic and authority records. What's more, Data Research has committed to support the emerging NISO Common Command Language standard for PACs, ensuring that ATLAS users will be at the forefront of tomorrow's movement toward simplified interlibrary resource sharing. **WITH FULLY INTEGRATED** modules for cataloging, circulation, PAC, acquisitions, materials booking, reserve book room, full-text database searching and a wide range of other services, ATLAS offers academic libraries the most powerful functionality in the industry. Call us today to find out how this power is flexible enough to serve dozens of diverse academic ATLAS installations, including community colleges like Maricopa County Community College in Phoenix and prestigious universities like Tufts.
