LTI consistently delivers first-rate database services. Many INNOPAC users have benefited from LTI's custom item field builds and impressive authority control processing. We have found that even the most complex jobs are completed on-time and in accord with library specifications.

Michael Upfold, Manager, Implementation Services, Innovative Interfaces Inc.

We can't promise 110, but we will promise 95. That's right. LTI guarantees that its affordable, machine-only Authority Control will link 95% or more of your library's controlled headings to an LC or LTI authority record. No exceptions! No excuses!

When manual review is requested, only professional librarians are used as editors and link rates approach 100%.

LTI maintains the complete LC MARC authority files (updated weekly), supplemented with over 400,000 LTI authority records and 250,000 proprietary "cross links."

*Contact LTI for more information on authority record link results.
