# The U.S. Patent Office trusts Todd.

## Shouldn't you?

Todd CD-ROM servers make possible high-velocity access to the nearly 6 million patents on file, including the 1,093 patents granted to the prolific Thomas Edison alone.

The Patent Office is just one of the many archival facilities that depends on Todd for database search and retrieval environments. So does the library of the

Nassau County Bar Association, as well as numerous other research and circulating libraries nationwide. Since 1986, Todd has led the way in providing safe and reliable network solutions on multiple platforms. Our elegant design allows for easy expansion and/or updating as needed. Todd delivers all this plus toll-free technical support and the industry's longest warranty. No wonder the word is getting around: Trust Todd.

*The Todd system in place in the U.S. Patent and Trademark Office includes CD-ROM servers, towers and jukeboxes.*
