A New Service on the Information Superhighway

Authority Express

If you have been searching for an easy way to authority control your library's current cataloging, try LTI's Authority Express service.

With Authority Express, a library uses the Internet to transmit a file of newly cataloged bibliographic records to LTI (via FTP). Overnight, LTI processes the records through its state-of-the-art authority control system. Then, at the library's convenience, it logs into LTI's FTP server to retrieve fully authorized catalog records, along with linked LC name and subject authority records.

Authority Express
• Keeps authority control current at an affordable price
• Integrates easily into existing workflows
• Lowers cost by reducing staff time spent on catalog maintenance
• Provides next-day turn around for up to 5,000 catalog records
• Accepts records for processing even if LTI did not perform the original authority control
