Instructions: Submitting the Survey

Confidentiality
The Indiana Historical Society will keep all responses confidential. Only the aggregate data will be reported; your individual responses will never be published or identified by the Indiana Historical Society, the Hoosier Heritage Alliance, the Institute of Museum and Library Services, or any organization cooperating in this project.

Scope of the Questionnaire
- Complete the questionnaire for the collecting institution identified in question A1.
- If you are one entity within a parent institution, fill out the survey only for your own holdings, not those of other collecting entities in your parent institution. They may receive their own surveys. For example, a library and a museum belonging to the same university may each receive separate surveys.
- If you are not under a parent institution, include information on all collections at your institution. For example, a museum that has its own library and archives should fill out one survey, including information on all of its museum, library and archival holdings.
- Complete the questionnaire for collections that are a permanent part of your holdings or for those you have agreed to preserve. If a library, include only special collections.
- Do not include living collections in your responses to this questionnaire, even if they are a part of your institution’s preservation responsibilities.

How to Complete the Questionnaire
- For questions that ask for a number or dollar amount, please provide your best estimate. Remember, these figures will constitute a state profile, so even a rough estimate is useful.
- If your responses do not fit in the spaces provided, please write them on the attached blank sheet.
- PLEASE do not leave questions blank. If there are questions that you cannot answer, select “Don’t know.” If there are questions that are not applicable to your institution, select “Not Applicable.”
- " denotes appearance of that word in the online glossary, www.indianahistory.org/lhs/hha.html. A printed copy of the glossary is available on request.

Why Should You Participate?
- The information you provide can be used to position your organization for funding. By describing the state of your collections and their care, you can convince donors, foundations and others that maintaining your buildings and preserving your collections are important.
- The data you gather can help you anticipate and plan for collections needs instead of reacting to problems and scrambling to solve them.
- Future workshops, seminars and conferences will be targeted to your needs based on the information you provide.
- The results of the survey will allow you to see how you compare with other collecting organizations in Indiana.
- In appreciation of your time, your organization will receive a summary report of statewide findings in late 2009. You will also receive complimentary tickets and discounts from Hoosier Heritage Alliance partners!
