Status of OA in China

- No OA journals
- Two Institutional Repositories (Hong Kong)
- Only 25 articles in Open Access Repository of Library and Information Science
- Qiji has about 3220 items
- Preprint is much smaller in scope for Chinese materials
- Sciencepaper Online is 500 items monthly
《清华大学学报》全文检索声明

我刊加入了“开放期刊阅读联盟”，向读者承诺：期刊出版后，网站上提供全文免费供读者阅读，或者应读者要求，在3个工作日内免费提供本刊发表过的论文全文（PDF格式或CAJ格式）。

《清华大学学报（自然科学版）》1915年到2003年全文检索

Issues of the Chinese OA Repositories

- Focal point of the repository
- Copyright information
- Persistent access
The copyrights of papers published on this site will be certificated to the authors. And the papers published on this site are still legibly permitted to submit to a traditional academic journal. The opinions in the papers published on this site are purely the opinions of the authors, not the opinions of the site.

To avoid international copyright conflicts, it is suggested to the authors that those papers, intentionally to be published in an international journal that requires the originality of a paper, be published on this site in a form of detailed summary so as to get an early intellectual rights of the new findings.

Alternative Economic Model of OA

• property of being non-rivalry
• property of partial excludability
• Information sharing vs. “free riding”
Incentives for OA

- The factor that there is no or little cost for sharing information
- The good feeling of contributing to the community
- The reputation gained in a given information community – indirect benefit
Paradox of OA

• Collective efforts
  – Stimulation
  – Enhancement
Paradox of OA—cont.

- Community
  - Scrutiny
  - Recognition
Government’s Role in OA

• The Gov. funded = OA?
• Providing funding
• Set policies to encourage OA
Open Access

- Philosophy
- Action
- Development
- Reality
Thank You!
