Thank You!

Thank you to the Fishkill Historical Society and the Friends of the Fishkill Supply Depot for hosting our July *Behind-the-Scenes*. We loved our private tour of the Van Wyck Homestead, learning about the work of the Friends of the Fishkill Supply Depot and our walk over to the Revolutionary War burial ground! To check out photos from the event, please [click here](#).

WEBINAR SERIES TWO: ENVIRONMENTAL MONITORING AND CONTROL

Space is filling up fast! Register Today!

Museums, libraries, and archives have long been without adequate tools and procedures for assessing and managing collection storage and display environments. Grant funds will be used to purchase environmental monitors for FREE lending to five organizations to sign up and attend all four webinars in the series. The Image Permanence Institute (IPI) has developed and tested the PEM2 Monitor, which is an innovative tool for environmental monitoring and data analysis. The workshop also includes training with the PEM2 Environmental Monitors which will be lent out to participants who request the equipment. *In order to be eligible to receive one of the PEM2 Environmental Monitors, a participant MUST attend all 4 of the webinars in this series.

Presenter: Rachael Arenstein, AM Art Conservation
All webinars in this series are from 1PM - 3PM

Webinar 2A- September 24, 2013: The Effect of Environment on Collection Materials

Webinar 2B- October 21, 2013: Developing an Environmental Monitoring Program

Webinar 2C- November 13, 2013: Using the PEM2 and its Software for Monitoring the Environment

Webinar 2D- December 10, 2013: Sustainable Practices for Managing the Environment

REGISTRATION IS NOW OPEN!

The Connecting to New York's Collections project is funded by a grant from the Institute for Museum and Library Services and administered by GHHN.
