## Procedures for Proposing and Guest Editing an Issue of *Library Trends*

We encourage our readers to submit ideas for future *Library Trends* themes; issue topics are developed using reader suggestions and recommendations from members of the Publications Committee. We also encourage readers to volunteer to be issue editors or to suggest others who may be willing to be issue editors.

The style and tone of the journal are formal rather than journalistic or popular. *Library Trends* issues review the literature, summarize current practice and thinking, and evaluate new directions in library practice. Papers must represent original work, published for the first time in *Library Trends*. Extensive updates of previously published papers are acceptable, but revisions or adaptations of published work are not sought.

An issue editor proposes the theme and scope of a new issue, draws up a list of prospective authors and article topics, and provides short annotations of the article's scope, or else gives a statement of the philosophy guiding the issue's development. Please send your ideas or inquiries to F.W. Lancaster, Editor, Publications Office, 249 Armory Building, 505 E. Armory Street, Champaign, IL 61820-6291.
