
About the Contributors

DONALD O. CASE is an Associate Professor, Graduate School of Library and Information Science, University of California, Los Angeles. He conducts research in two areas: information technology (including aspects of evaluation and policy), and information needs and uses (particularly in the social sciences). He is the author of several scholarly papers, reports, and articles including publications in *Library Quarterly*, the *Journal of the American Society for Information Science*, and the *Journal of Information Science*.

MARY KAY DUGGAN is an Associate Professor, School of Information Studies, University of California at Berkeley, where she teaches courses in information service and the history of printing and publishing. Until 1993, she is on leave to serve as Associate Director of the University of California Study Center in London administering the Education Abroad Program in the United Kingdom and Ireland. She received her Bachelor of Music and M.A. in Musicology from Ohio State University and an M.L.I.S. from the University of California at Berkeley. Recent publications include *Italian Music Incunabula: Printers and Types* (University of California Press, 1992); *CD-ROM in the Library: Today and Tomorrow* (G.K. Hall, 1990); "Copyright of Electronic Information: Issues and Questions," *Online*, 15(3), 20-26; "Access to Sound and Image Databases." *Multimedia Information Systems* (Proceedings of the 1991 ASIS Mid-Year Meeting) (ASIS, 1991).

MATTHEW B. GILMORE is Reference Librarian, Washingtoniana Division, Martin Luther King Memorial Library, District of Columbia Public Library, Washington, DC. His preprofessional and professional experience has been in college and special collections. Mr. Gilmore has published articles in *The Indexer* and in *Library Trends*.

SYLVIA C. KRAUSSE is Professor and Head of Reference at the University of Rhode Island Library. As reference librarian, her subject responsibilities are the humanities, particularly languages, linguistics, and the arts. Her publications include a monograph on

Brunei and various articles on the application of computer technology in academic libraries. For several years she also taught language courses in German, Indonesian, and Malay at the universities of Hawaii, Oregon, and Northern Illinois University.

ANITA LOWRY is Deputy Head of the Butler Reference Department and co-founder and Director of the Electronic Text Service, Columbia University Libraries. On the podium and in print she is an active advocate of the new information technologies in the humanities. Recent publications include a chapter in the *Humanities Computing Yearbook, 1989-1990* (Oxford, England: Oxford University Press, 1991), an article in *Computer Files and the Research Library* (Mountain View, CA: Research Libraries Group, 1990), and *Beyond BI: Information Literacy in the Electronic Age, Research Strategies* (Winter 1990).

BEATRICE T. OSHIKA is a faculty member in the Department of Linguistics at Portland State University, Portland, Oregon, where she offers courses in computational linguistics. She is also Director of the university's North Pacific Applied Research Center. She has over twenty-two years of university and industry experience in speech and natural language processing and has published extensively in the area of speech recognition and natural language understanding systems. She is also a consultant on language technology, products, and markets in the United States and Asia.

MARCIA REED is Curator of Rare Books in the Special Collections of the Getty Center for the History of Art and the Humanities. She was formerly the Head of Reader Services at the Getty Center since its establishment in 1983. In this position she developed reference collections and user services for the center's research collections. Ms. Reed is the author of many book reviews published in *Art Documentation* as well as articles and exhibition catalogs on topics relating to art librarianship and bibliography. For several years she has taught a course on the literature of the humanities at UCLA's Graduate School of Library and Informational Science.

MARA R. SAULE is Library Associate and Professor and Executive Assistant to the President at the University of Vermont. She also teaches courses in written composition and American literature at the university. In addition, Ms. Saule has served as instruction coordinator for the University of Vermont's Bailey/Howe Library and has written extensively on teaching database searching including two recent books, *Teaching Technologies in Libraries* (Boston, MA: G. K. Hall, 1991) and *CD-ROM and Other Optical Information Systems* (Phoenix, AZ: Oryx Press, 1989).

EDWARD SHREEVES is Director for Collection Management and Development at the University of Iowa Libraries where he also has responsibility for the humanities division and preservation. He is the editor of *Guide to Budget Allocation for Information Resources* (Chicago, IL: American Library Association, 1991) and is active in the Western European Specialists Section of the Association of College and Research Libraries and the Collection Management and Development Section of the Association for Library Collections and Technical Services.

MICHAEL STOLLER is History Bibliographer at Columbia University Libraries and chairs that library's Humanities and History Serials Selection Committee. Mr. Stoller has written and spoken extensively on the topic of libraries acquiring large manuscript collections in microform and also produces an annual bibliography of bibliographies in American history for the journal *American History: A Bibliographic Review*. In addition, he has published on the subject of antipopes of the eleventh century and is working on a biography of the Emperor Henry IV.

MARK STOVER is Director of the Library at the California Family Study Center, North Hollywood, California. Mr. Stover holds graduate degrees in library science (University of California at Los Angeles) and religious studies (Westminster Theological Seminary). He has written numerous articles and reviews on libraries, computers, and religion for *RQ*, *Computers in Libraries*, *CD-ROM Professional*, and in the *Calvin Theological Journal*. In addition, Mr. Stover has served as an automation consultant for a number of theological libraries.

JAMES H. SWEETLAND is Associate Professor in the School of Library and Information Science, University of Wisconsin-Milwaukee, where he teaches courses in automated information retrieval, collection management, and the information sources and services of the social sciences. Mr. Sweetland is the author of numerous articles dealing with collection management, book reviewing, and the near future of reference work. He has also made presentations on the topic "What's New and Coming" in social sciences, arts and humanities databases at several of the annual online conferences since 1986.

ERWIN K. WELSCH is European History Librarian in the Memorial Library of the University of Wisconsin—Madison where he is responsible for collection development. He was awarded his degree in library science and his Ph.D. in European history by Indiana University in Bloomington. He has published books, some in several editions, on libraries and archives in France and Germany as well as a bibliography on Danish literature and another on African

Americans that was selected as one of the reference works of the year. He has written a number of articles on collection development as well as on the application of technologies to libraries including columns in *Computers in Libraries* and *The Electronic Library*.
