
About the Contributors

BRYCE ALLEN is a faculty member in the Graduate School of Library and Information Science, University of Illinois at Urbana-Champaign, where he teaches primarily in the library management and reference areas. Mr. Allen is the author of numerous publications on the effects of cognitive differences on information search processes, reference services, and library management.

KENNETH ARNOLD is founder and president of New Century Communications, a publishing and media consulting firm. He is also a partner in the recently organized PubComm Group, which is developing a new system for transmitting information electronically. For twenty-seven years, Mr. Arnold worked in university publishing—from 1982 to 1984 as director of Rutgers University Press. His essay “The Body in the Virtual Library: Rethinking Scholarly Communication” is forthcoming in *Computer Networking and Scholarship in the 21st Century University*, edited by Teresa Harrison and Timothy Stephen. “The Electronic Librarian is a Verb/The Electronic Library is not a sentence” is scheduled for publication in *Biblion*, the journal of the New York Public Library. “The Scholarly Monograph is Dead; Long Live the Scholarly Monograph,” appeared in *Visions and Opportunities in Electronic Publishing: Proceedings of the Second Symposium*, edited by Ann Okerson. He has also spoken on the subject of electronic communications at meetings of the Association of American University Presses, the Society for Scholarly Publishing, and the International Association of Scholarly Publishers.

ANN PETERSON BISHOP is an associate professor in the Graduate School of Library and Information Science at the University of Illinois at Urbana-Champaign. She received her MLS and doctorate from Syracuse University’s School of Information Studies. Ms. Bishop’s research interests

include information seeking and use behavior, scientific and technical communication, digital libraries, and federal information policy. She is co-founder of Prairienet (a Free-Net in Illinois) and Associate Editor of *Internet Research*.

MAYNARD BRICHFORD is a Professor of Library Administration at the University of Illinois at Urbana-Champaign, where he has been University Archivist since 1963. A former President of the Society of American Archivists, he has written articles on archival theory and practice and a manual on archival appraisal.

GAY N. DANNELLY (B.A., University of Denver; M.A.L.S., University of Wisconsin, Madison) is the Collection Development Officer and Assistant Professor at The Ohio State University. Ms. Dannelly is active in the American Library Association, the Center for Research Libraries, the Committee on Institutional Cooperation, and OhioLINK committees. She has presented papers at a variety of professional library conferences and published on topics in collection management and development, budgeting and resource sharing.

LAURA N. GASAWAY is Director of the Law Library and Professor of Law at the University of North Carolina at Chapel Hill where she teaches courses in intellectual property and gender discrimination in the School of Law and a course in law librarianship and legal resources in the School of Information and Library Science. She has authored many articles on copyright law and on the law of personnel management in addition to four books. Her most recent book, co-authored with Sarah K. Wiant, is *Libraries and Copyright: A Guide to Copyright Law in the 1990's* published in 1994 by the Special Libraries Association. Professor Gasaway is a past president of the American Association of Law Libraries and serves on the Accreditation Committee of the American Bar Association.

JOSÉ-MARIE GRIFFITHS is Vice Chancellor for Computing and Telecommunications and Director of the School of Information Sciences, University of Tennessee. She is developing a vision statement and strategic plan for computing, telecommunications, and information delivery in the academic institution of the future. Recent projects include annual assessment of the automated system marketplace (for *Library Journal*), development of metadata systems for access to heterogeneous networked information, assessment of STI dissemination in the United States, the design of the next generation of online information retrieval systems, and several statewide automated resource-sharing systems. Ms. Griffiths has authored or co-authored six books and nearly 200 other formal publications. She has taught at five universities and has given over seventy-five invited seminars and workshops on technology in twenty-two countries.

TERESA M. HARRISON is an Associate Professor of Communication in the Department of Language, Literature, & Communications at Rensselaer Polytechnic Institute. She is a co-director of "Comserve," a network-based information and conference service for the communication discipline and one of the founders of the Communications Institute for Online Scholarship. Ms. Harrison is also co-editor with Timothy Stephen for the forthcoming anthology, *Computer Networking and Scholarly Communication in the 21st Century University* (SUNY Press).

THOMAS B. HICKEY is currently Chief Scientist at the OCLC Online Computer Library Center (OCLC). His degrees include a B.S. in Physics from SUNY at Stony Brook and a Ph.D. in Library Science from the University of Illinois at Urbana-Champaign. Mr. Hickey has been investigating and implementing electronic publication systems for scientific literature at OCLC since the early 1980s. Recently he wrote and directed the initial development of the "First Search" user interface and directed the development of the Guidon Interface used by OCLC's *Electronic Journals Online* service.

DONALD W. KING is a consultant with King Research and the University of Illinois' Center for Library Research. He has been involved in electronic publishing studies since the early 1970s when he directed an NSF study on Editorial Processing Centers. Following that time, Mr. King directed a series of statistical studies on Statistical Indicators of STI communication, systems analysis concerning electronic alternatives to paper-based journals, two major copyright guides, and proprietary studies dealing with pricing CD-ROM products and distribution of article separates. Recently, Mr. King worked on several statewide resource-sharing studies, and over thirty studies involving use and value of publications and libraries. He has co-authored or edited thirteen books (two won awards) and has over 250 other formal publications.

F. W. LANCASTER is Professor Emeritus in the Graduate School of Library and Information Science, University of Illinois at Urbana-Champaign and is Editor of *Library Trends*.

WILLIAM J. MAHER has been Assistant University Archivist of the University of Illinois at Urbana-Champaign since December 1977, and from 1990 through 1996 he is Director of the UIUC Library's Humanities Preservation Project. Professor Maher is author of *The Management of College and University Archives* (Society of American Archivists and Scarecrow Press, 1992) and has written numerous articles on archival issues. He holds an M.A. in History from Washington University in St. Louis and an M.S. in Library and Information Science from the University of Illinois at Urbana-Champaign.

TIMOTHY D. STEPHEN is an Associate Professor of Communication in the Department of Language, Literature, & Communications at Rensselaer Polytechnic Institute. He is a co-director of "Comserve," a network-based information and conference service for the communication discipline and one of the founders of the Communications Institute for Online Scholarship. Mr. Stephen is also co-editor with Teresa Harrison for the forthcoming anthology, *Computer Networking and Scholarly Communication in the 21st Century University* (SUNY Press).

CAROL TENOPIR is a Professor at the School of Information Sciences, University of Tennessee, where she teaches in the areas of the information industry and information access and retrieval. From 1983 to 1994, Ms. Tenopir was on the faculty of the University of Hawaii, School of Library and Information Studies. She is a frequent contributor to the library and information science literature in the areas of online databases and electronic texts. Since 1983, her column, "Online Databases," has appeared in *Library Journal*. Ms. Tenopir holds a Ph.D. from the University of Illinois at Urbana-Champaign.

STUART L. WEIBEL has worked in the Office of Research at OCLC since 1985. During this time, he has managed projects in the areas of automated cataloging, document capture and structure analysis, and electronic publishing. He currently coordinates networked information services research projects in the Office of Research, including applications of World Wide Web technology and Internet protocol standardization efforts. Dr. Weibel is active in the Internet Engineering Task Force working groups on Hypertext Markup Language and Uniform Resource Identifiers. He is also a founding member of the World Wide Web Conference Coordinating Committee.
