The New Horizons Media Initiative is a multi-sponsor initiative to establish a unique educational, research, communication and outreach resource for the UIUC campus, East-Central Illinois, other U of I campuses, and communities across the country. The content compiled here provides a framework to advance the following action point proposed by the Initiative:

- Plan, design and implement (in dialogue with LMI campus and community partners) a University of Illinois Web Portal in Spanish and English that serves as a marketplace to showcase the multitude of University of Illinois Latina/o programs and initiatives across the campuses and provides access to community-based outreach programs and research initiatives that focus on Latino audiences across the state.

**Campus Scholars in Latina/o Interests**
