

Incident Response Lifecycle from

<http://csrc.nist.gov/publications/drafts/800-61-rev2/draft-sp800-61rev2.pdf> (Figure 3-1)

CIS Controls: <https://www.cisecurity.org/controls/>

You have a limited budget. Choose 8 controls you can implement.

Incident scenario from:

<https://docs.google.com/presentation/d/1LzqF4hvHwNvdzlaJdeLLTVYqAsGlejN1YCRqbmnuINQ/edit#slide=id.p116>

How did your chosen controls help with lifecycle steps?

You can add 3 more controls. Which ones do you choose?

Repeat with another scenario.

Wrap-up: What's unique about incident response in NSF CI?
